Template: Sticky

Posted on [January 7, 2012](#)

This is a sticky post.

There are a few things to verify:

- The sticky post should be distinctly recognizable in some way in comparison to normal posts. You can style the `.sticky` class if you are using the `post_class()` function to generate your post classes, which is a best practice.
- They should show at the very top of the blog index page, even though they could be several posts back chronologically.
- They should still show up again in their chronologically correct position in time, but without the sticky indicator.
- If you have a plugin or widget that lists popular posts or comments, make sure that this sticky post is not always at the top of those lists unless it really is popular.

TEMPLATE: STICKY

 January 7, 2012 |  by: admin |  Category: Uncategorized |  Edit

This is a sticky post.

There are a few things to verify:

- The sticky post should be distinctly recognizable in some way in comparison to normal posts. You can style the `.sticky` class if you are using the `post_class()` function to generate your post classes, which is a best practice.
- They should show at the very top of the blog index page, even though they could be several posts back chronologically.
- They should still show up again in their chronologically correct position in time, but without the sticky indicator.
- If you have a plugin or widget that lists popular posts or comments, make sure that this sticky post is not always at the top of those lists

The screenshot shows a WordPress blog post page for 'topcat' relocation transition solutions. The post is titled 'TEMPLATE: STICKY' and was published on January 7, 2012, by admin, categorized as Uncategorized. A red circle highlights the post content area, labeled '5'. A red arrow points from '1' to the top navigation bar, which includes links like HOME, BLOG, CONTACT US, FRONT PAGE, SAMPLE PAGE, ABOUT THE TESTS, LEVEL 1, and LOREM IPSUM. Another red arrow points from '2' to the sidebar menu, which lists PAGE A and PAGE B. A red arrow points from '3' to the right sidebar, which contains an excerpt of a sticky post and a 'Read More' link. A red arrow points from '4' to the bottom left, where there are 'PREVIOUS' and 'NEXT' links, and a 'LEAVE A REPLY' form.

Markup: Title With Special Characters
Posted on [January 5, 2013](#) by [admin](#)

Putting special characters in the title should have no adverse effect on the layout or functionality.

Special characters in the post title have been known to cause issues with JavaScript when it is minified, especially in the admin when editing the post itself (ie. Issues with metaboxes, media upload, etc.).

Latin Character Tests

This is a test to see if the fonts used in this theme support basic Latin characters.

HORIZONTAL

FEATURED IMAGE

This post should display a [Featured image](#), if the theme [supports it](#).

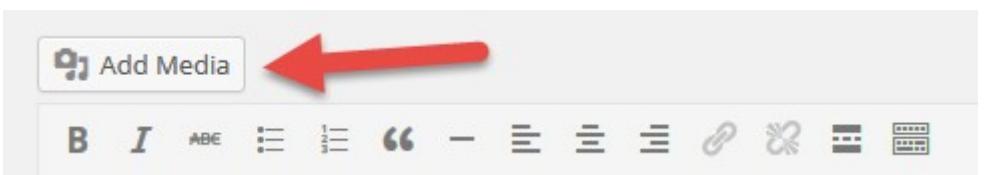

**THIS IMAGE IS
580 X 300**

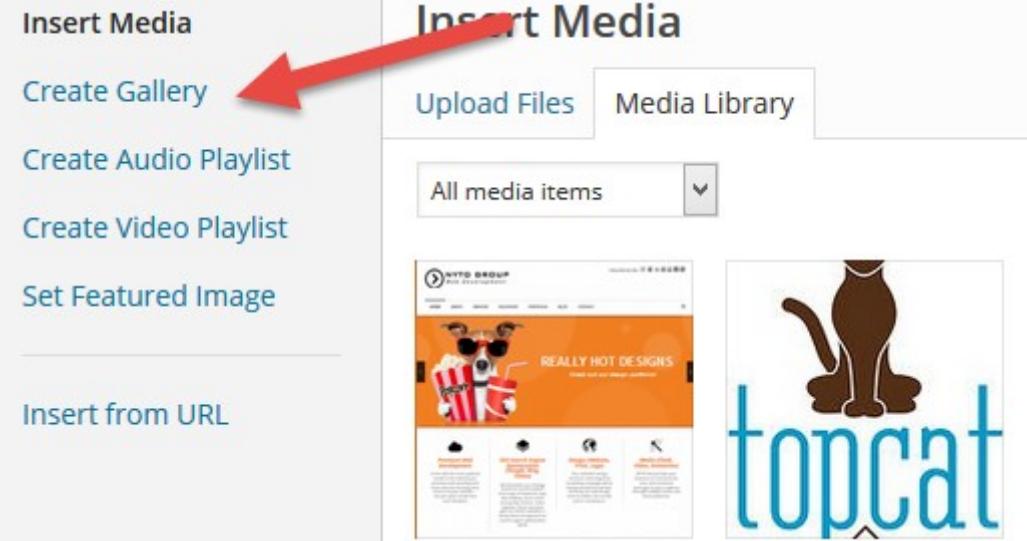

Look at 580×300 getting some [caption love](#).

**THIS IMAGE IS
580 X 300**

Look at 580x300 getting some [caption love](#).

The image shows a portion of a WordPress editor's toolbar. On the left, there are standard rich text editing tools: bold (B), italic (I), underline (U), and various alignment and style options. To the right of these is a large, light-gray button labeled "Add Media" with a camera icon. A thick red arrow points from the bottom-left towards this button.

The image shows the "Insert Media" modal window. At the top left, it says "Insert Media". Below that is a sidebar with several options: "Create Gallery" (highlighted with a red arrow), "Create Audio Playlist", "Create Video Playlist", and "Set Featured Image". A horizontal line separates this from the main content area. In the main area, there are two tabs: "Upload Files" and "Media Library", with "Upload Files" currently selected. Below the tabs is a dropdown menu set to "All media items". The main content area displays a thumbnail of a dog wearing sunglasses and holding popcorn, with the text "REALLY HOT DESIGNS" above it. To the right of this thumbnail is a larger thumbnail for a logo featuring a brown cat silhouette and the word "topcat" in blue lowercase letters.

Chapter 8:

TEMPLATE: STICKY

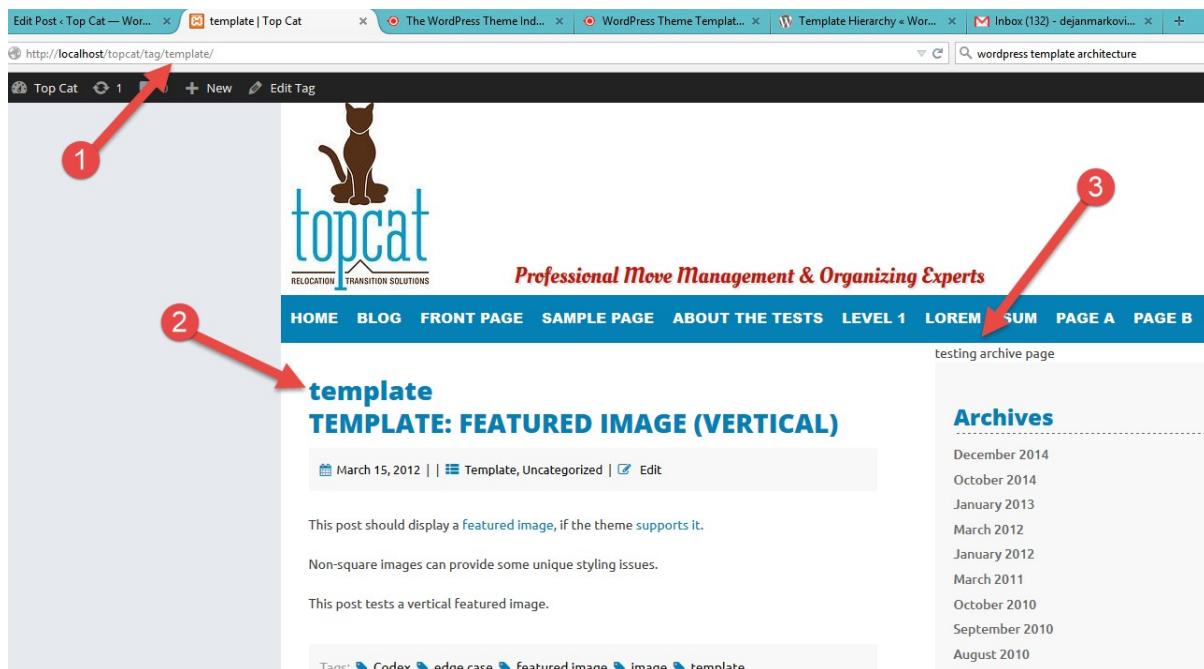

January 7, 2012 | Uncategorized | Edit

This is a sticky post.

There are a few things to verify:

- The sticky post should be distinctly recognizable in some way in comparison to normal posts. You can style the `.sticky` class if you are using the `post_class()` function to generate your post classes, which is a best practice.
- They should show at the very top of the blog index page, even though they could be several posts back chronologically.
- They should still show up again in their chronologically correct position in time, but without the sticky indicator.
- If you have a plugin or widget that lists popular posts or comments, make sure that this sticky post is not always at the top of those lists unless it really is popular.

Tags:  sticky  template

The screenshot shows a browser window with multiple tabs open. The active tab displays a sticky post titled "TEMPLATE: STICKY" with the date "January 7, 2012". A red arrow labeled "1" points to the browser's address bar, which shows the URL "http://localhost/topcat/tag/template/". Another red arrow labeled "2" points to the post title "template" and the subtitle "TEMPLATE: FEATURED IMAGE (VERTICAL)". A third red arrow labeled "3" points to the "SUM" link in the navigation menu, which is described as a "testing archive page". The sidebar on the right contains an "Archives" section listing various months from 2010 to 2014.

[metaslider id=1734]

Visual Text (HTML) X

A red arrow points from the top image down to the [metaslider id=1734] shortcode in the WordPress editor's visual mode.

A screenshot of the 'Services' list page. The title 'Services' is at the top, followed by an 'Add New' button. Below that are filters for 'All (4)', 'Published (4)', and 'Trash (1)'. There are buttons for 'Bulk Actions', 'Apply', 'All dates', and 'Filter'. The main area lists five service items:

- Title
- Nemo enim ipsam
 - Edit | Quick Edit | Trash | View
- Sed ut perspiciatis
- Neque porro
- Quis

Red arrows and numbers are overlaid on the image: arrow 1 points to the 'Add New' button, and arrow 2 points to the second item in the list, 'Nemo enim ipsam'.

```

<?php
/*
Template Name: Home Page
*/
get_header(); ?>
<div id="primary" class="content-area">
|   <main id="main" class="site-main" role="main">
|       <?php if ( have_posts() ) : while ( have_posts() ) : the_post();?>
|           <?php the_content(); ?>
|       <?php endwhile; endif; ?>

        <!-- check if nyto-services-cpt plugin is installed (it is required if we are going to use the Services feature) -->
        <?php if ( is_plugin_active( 'nyto-services-cpt/nyto_services_cpt.php' ) ) {
            ?>
            <!-- Display custom posts of type service -->
            <?php $loop = new WP_Query( array( 'post_type' => 'service' ) ); ?>
            <?php
                if ( $loop->found_posts > 0 ) {
                    $service_class = '';
                    if ( $loop->found_posts <= 4 ) {
                        $service_class = round( 100 / $loop->found_posts );
                    }
                }
            ?>
            <!-- begin services row -->
            <section class="inline-block-center services_section">
                <?php while ( $loop->have_posts() ) : $loop->the_post(); ?>
                    <div class=<?php echo 'perc'. $service_class; ?><!-- begin services column -->
                        <?php echo '<h2 class="service-title">' . get_the_title(). '</h2>'; ?>
                        <span class="entry-content service-content">
                            <?php the_content(); ?>
                        </span>
                    </div><!-- end services column wrapper -->
                <?php endwhile; ?>
            </section><!-- end services row -->
        <?php } //closing if services exists ?>
    <?php } //closing if services exists ?>
    </main>
</div><!-- #primary -->
<?php get_footer(); ?>

```

The diagram illustrates the flow of the PHP code through numbered arrows pointing to specific sections:

- 1**: Points to the opening of the main content area.
- 2**: Points to the check for the 'nyto-services-cpt' plugin.
- 3**: Points to the creation of a new WP_Query object.
- 4**: Points to the first condition in the if statement for found posts.
- 5**: Points to the assignment of \$service_class based on the number of posts.
- 6**: Points to the opening of the services section.
- 7**: Points to the start of the while loop for posts.
- 8**: Points to the opening of the services column.
- 9**: Points to the assignment of the percentage class based on the post count.
- 10**: Points to the opening of the services title.
- 11**: Points to the opening of the services content.
- 12**: Points to the closing of the services column.
