SET UP GOOGLE PLAY GAME SERVICES FOR AN APP

Do you already use Google APIs in your app?

I don't use any Google APIs in my game yet

I already use Google APIs in my game

What is the name of your game?

Snake

5 of 30 characters

This is the name that will be displayed to users in Google Play game services.

What kind of game is it?

Arcade

The category helps users browse interesting games.

Google Play game services use the following APIs: Google Play App State, Google+ API, Google Play Game Services and Google Play Game Management

We will automatically create a project for your game on the [Google Developers Console](#) and enable the necessary APIs for you.
