Chapter 8:

A screenshot of the 'Create New App' dialog box. The title bar is blue and contains the text 'Create New App'. The main area is white and contains several form fields:

- 'App Name: [?]' with a text input field containing 'Unified Status' and a green 'Valid' label to its right.
- 'App Namespace: [?]' with a text input field containing 'Optional'.
- 'App Category: [?]' with a dropdown menu showing 'Lifestyle' and a secondary dropdown menu labeled 'Choose a sub-category'.
- 'Web Hosting: [?]' with a checkbox that is currently unchecked and the text 'Yes, I would like free web hosting provided by Heroku (Learn More)'.

At the bottom of the dialog, there is a grey bar containing the text 'By proceeding, you agree to the Facebook Platform Policies' on the left, and two buttons, 'Continue' and 'Cancel', on the right.

Chapter 9:

Creating an app on Flickr - Application Sharing!

www.flickr.com/services/apps/create/noncommercial/?

The App Garden

[Create an App](#) [API Documentation](#) [Feeds](#) [What is the App Garden?](#)

Tell us about your app:

Owner: christian_brousseau

This app will be associated with your christian_brousseau account. You will not be able to change this after you submit your application.

What's the name of your app?

What are you building?
(And trust us when we say you can't be detailed enough)

This chapter guides the reader in creating an application that shows online pictures that were taken near the device's current location. It covers location services, web API calls and Photo Gallery integration.

I acknowledge that Flickr members own all rights to their content, and that it's my responsibility to make sure that my project does not contravene those rights.

I agree to comply with the [Flickr API Terms of Use](#).

The App Garden

Create an App | API Documentation | Feeds | What is the App Garden?

Done! Here's the API key and secret for your new app:

 Photo Surrounder

Key:
e4c3485aa03 bc17f0 1383 126f

Secret:
a24 57 fcd 4da

[Edit app details](#) - [Edit auth flow for this app](#) - [View all Apps by You](#)

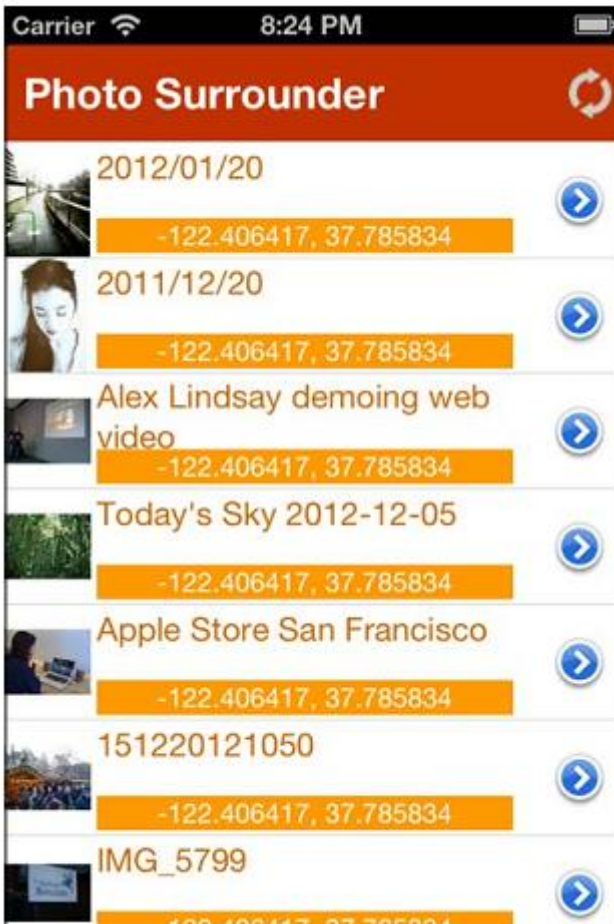

What to do next

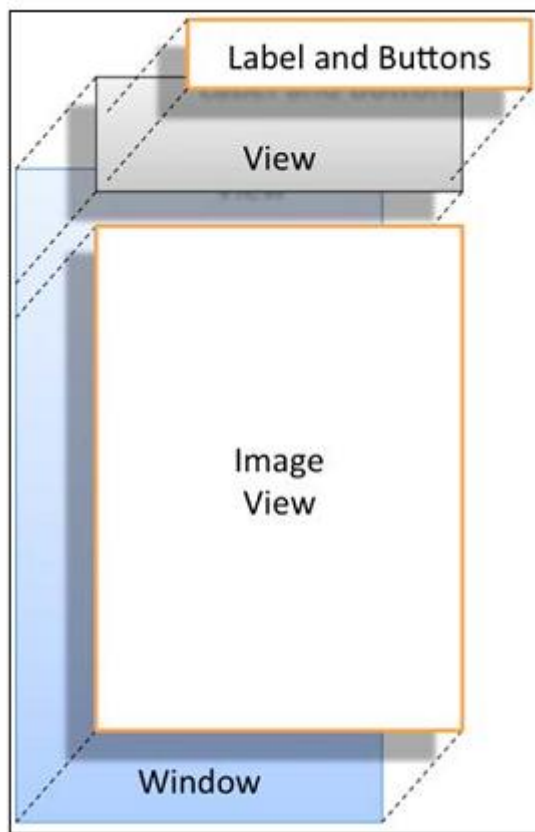

If your key is to use in an application that someone else developed, for example to display your own or your group's photos on your website or blog, then you're all done!

If your key is for an app that you're developing, here are things to help you build and promote your app:

- **Build your app**

You're all set to build something cool with the API key and secret! Make sure you know what you can and can't do with the images and data on Flickr before you design your app. Save some time by reading these reference guides first:

Chapter 10:
