

Chapter 01: R Fundamentals for Machine Learning

The image shows a screenshot of the RGui (64-bit) window. The window title is "RGui (64-bit)" and it has a menu bar with "Archivo", "Editar", "Visualizar", "Misc", "Paquetes", "Ventanas", and "Ayuda". Below the menu bar is a toolbar with icons for file operations. The main area is the "R Console" window, which displays the following text:

```
R version 3.5.1 (2018-07-02) -- "Feather Spray"  
Copyright (C) 2018 The R Foundation for Statistical Computing  
Platform: x86_64-w64-mingw32/x64 (64-bit)  
  
R es un software libre y viene sin GARANTIA ALGUNA.  
Usted puede redistribuirlo bajo ciertas circunstancias.  
Escriba 'license()' o 'licence()' para detalles de distribucion.  
  
R es un proyecto colaborativo con muchos contribuyentes.  
Escriba 'contributors()' para obtener más información y  
'citation()' para saber cómo citar R o paquetes de R en publicaciones.  
  
Escriba 'demo()' para demostraciones, 'help()' para el sistema on-line de ayuda,  
o 'help.start()' para abrir el sistema de ayuda HTML con su navegador.  
Escriba 'q()' para salir de R.

Search

* = Required

The search function enables you to locate financial institution data by entering one or more of the criteria below. If more than one institution meets the criteria you enter, you will be provided with a list of institutions. Please select a report type; enter your criteria and click the "Search" button. Note that if the search criteria you enter are not sufficiently specific, you may be requested to refine your search. For additional information and help with this page, click [here](#).

Please note Peer Group 1 (Insured commercial banks having assets greater than \$3 billion) has been broken up into the following three new Peer Groups: Peer Group 1 (Insured commercial banks having assets greater than \$100 billion), Peer Group 2 (Insured commercial banks having assets between \$10 billion and \$100 billion) and Peer Group 3 (Insured commercial banks having assets between \$3 billion and \$10 billion). Peer groups 2 through 15 have been renamed Peer Groups 4 through 17. Please refer the UBPR User's Guide and UBPR Peer Group Changes memo dated April 13, 2018 for additional information.

Failed Bank List

The FDIC is often appointed as receiver for failed banks. This page contains useful information for the customers and vendors of these banks. This includes information on the acquiring bank (if applicable), how your accounts and loans are affected, and how vendors can file claims against the receivership. [Failed Financial Institution Contact Search](#) displays point of contact information related to failed banks.

This list includes banks which have failed since October 1, 2000. To search for banks that failed prior to those on this page, visit this link: [Failures and Assistance Transactions](#)

Click arrows next to headers to sort in Ascending or Descending order.

Chapter 05: Predicting Failures of Banks - Multivariate Analysis

$$L_n \left(\frac{P(Y = 1)}{1 - P(Y = 1)} \right) = \alpha + \sum_{i=1}^P \beta_i X_i$$

The screenshot displays the H2O Flow web interface. At the top, there is a navigation bar with the H2O logo and a hamburger menu, followed by tabs for Flow, Cell, Data, Model, Score, Admin, and Help. Below this is the title 'Untitled Flow' and a toolbar with various icons for file operations and execution. The main workspace contains a code editor with the text 'assist' and a '425ms' execution time indicator. On the left, an 'Assistance' panel is open, listing various routines with their descriptions. On the right, a 'Help' sidebar is visible, featuring a search icon, a title 'Using Flow for the first time?', a 'Quickstart Videos' button, and a section for 'STAR H2O ON GITHUB!' with a star count of 3,489. Below that, a 'GENERAL' section lists several links related to Flow usage.

Routine	Description
importFiles	Import file(s) into H2O
importSqlTable	Import SQL table into H2O
getFrames	Get a list of frames in H2O
splitFrame	Split a frame into two or more frames
mergeFrames	Merge two frames into one
getModels	Get a list of models in H2O
getGrids	Get a list of grid search results in H2O
getPredictions	Get a list of predictions in H2O
getJobs	Get a list of jobs running in H2O
runAutoML	Automatically train and tune many models
buildModel	Build a model
importModel	Import a saved model
predict	Make a prediction

Chapter 06: Visualizing Economic Problems in the European Union

General summary of the opinions reflected by our ratings		
Investment Grade	AAA	Extremely strong capacity to meet financial commitments. Highest rating
	AA	Very strong capacity to meet financial commitments
	A	Strong capacity to meet financial commitments, but somewhat susceptible to adverse economic conditions and changes in circumstances
	BBB	Adequate capacity to meet financial commitments, but more subject to adverse economic conditions
	BBB-	Considered lowest investment-grade by market participants
Speculative Grade	BB+	Considered highest speculative-grade by market participants
	BB	Less vulnerable in the near-term but faces major ongoing uncertainties to adverse business, financial and economic conditions
	B	More vulnerable to adverse business, financial and economic conditions but currently has the capacity to meet financial commitments
	CCC	Currently vulnerable and dependent on favorable business, financial and economic conditions to meet financial commitments
	CC	Highly vulnerable; default has not yet occurred, but is expected to be a virtual certainty
	C	Currently highly vulnerable to non-payment, and ultimate recovery is expected to be lower than that of higher rated obligations
	D	Payment default on a financial commitment or breach of an imputed promise; also used when a bankruptcy petition has been filed or similar action taken
Ratings from 'AA' to 'CCC' may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories.
