

# Chapter 1: Getting Started

The screenshot shows the Firefox 'about:config' page. A search bar at the top contains the text 'security.fileuri.strict\_origin\_policy'. Below the search bar, a table lists the search results. The table has four columns: 'Preference Name', 'Status', 'Type', and 'Value'. One row is visible, corresponding to the search term.

Preference Name	Status	Type	Value
security.fileuri.strict_origin_policy	user set	boolean	false

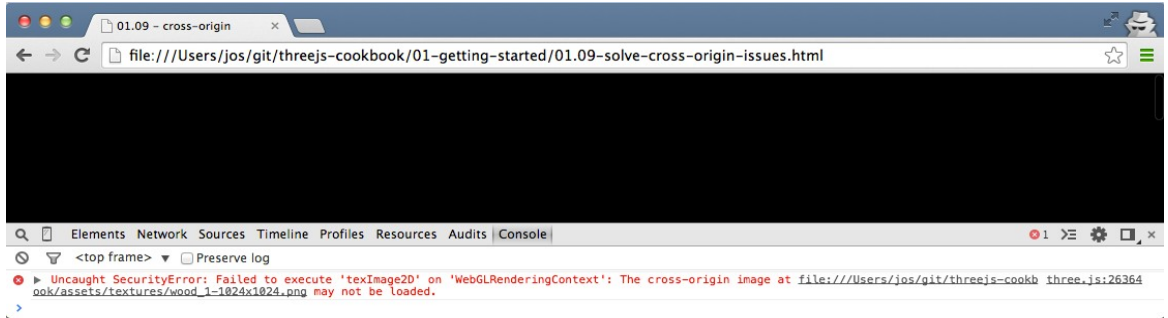

The screenshot shows the Firefox 'about:config' page with a warning dialog box displayed in the center. The dialog box has a yellow warning icon and the following text:

**This might void your warranty!**

Changing these advanced settings can be harmful to the stability, security, and performance of this application. You should only continue if you are sure of what you are doing.
