Running WebRTC With and Without SIP

JavaScript Session Establishment Protocol (JSEP)

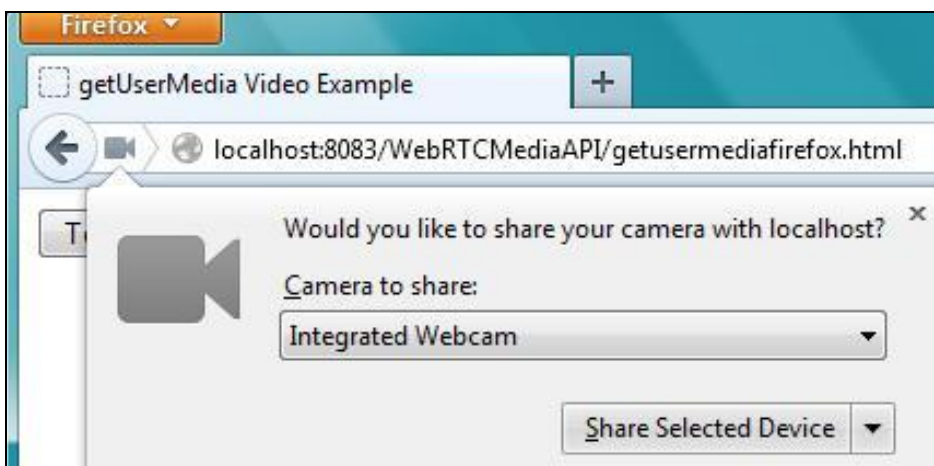

The signal and media planes

Running WebRTC without SIP

Sending media over WebSockets

http://localhost:8080/ wants to use your camera and microphone.

PeerConnection Demo x
localhost:8083/WebRTCMediaAPI/Testpeerconnection.html

PeerConnection Demo

localhost:8083/WebRTCMediaAPI/Testpeerconnection.html

Start Call Hang Up

This browser window displays a peer-to-peer video call interface. It features two side-by-side video feeds, both of which are currently blurred. Below the video feeds are three control buttons: 'Start', 'Call', and 'Hang Up'.

Data Channel Demo 1

localhost:8083/WebRTCMediaAPI/TestdataChannel.html

Send data

Received Data

Start Send Data Stop Send Data

This browser window displays a data channel interface. It is divided into two main sections: 'Send data' on the left and 'Received Data' on the right. Each section contains a large, empty rectangular area for data transmission. Below these sections are three control buttons: 'Start', 'Send Data', and 'Stop Send Data'.

Send data

```
Hello ,  
This a Datachannel test , to exchange a set of text between  
two peers .
```

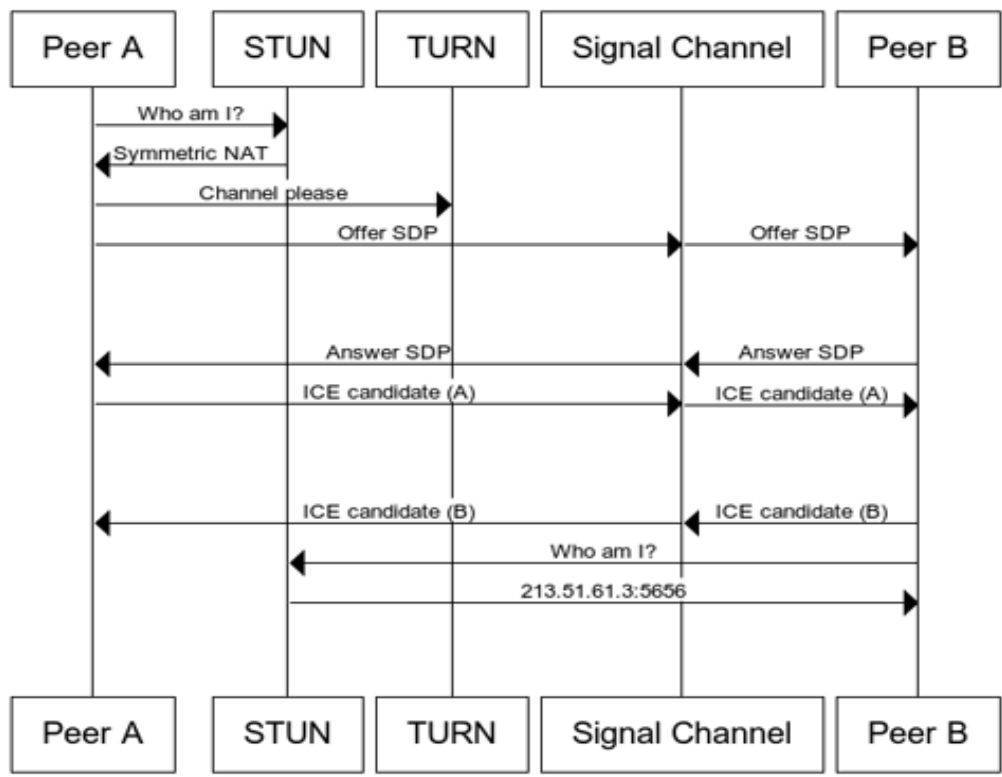

Received Data

Send data

```
Hello ,  
This a Datachannel test , to exchange a set of text between  
two peers .
```

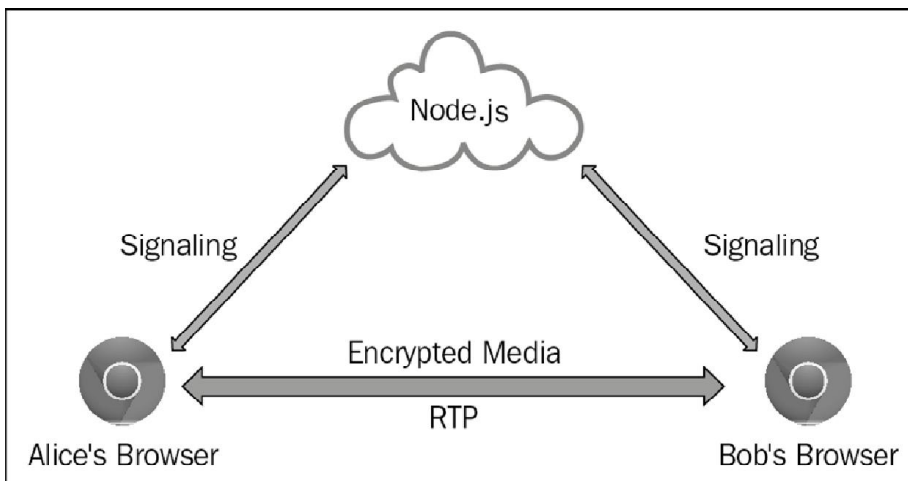

Received Data

```
Hello ,  
This a Datachannel test , to exchange a set of text between  
two peers .
```

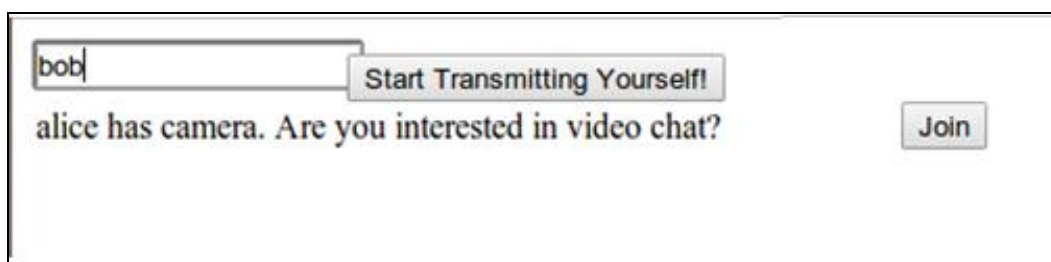

WebRTC through WebSocket signaling servers

Node.js

Making a peer-to-peer audio call using node.js for signaling

bob

Start Transmitting Yourself!

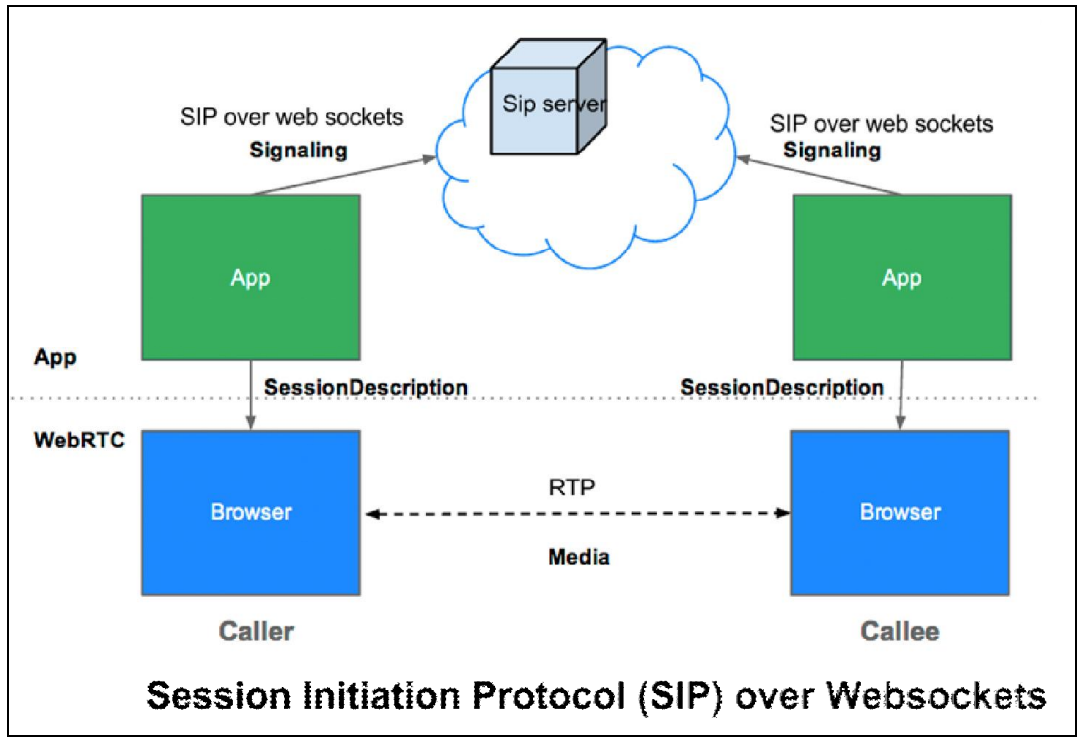

alice has camera. Are you interested in video chat?

Join

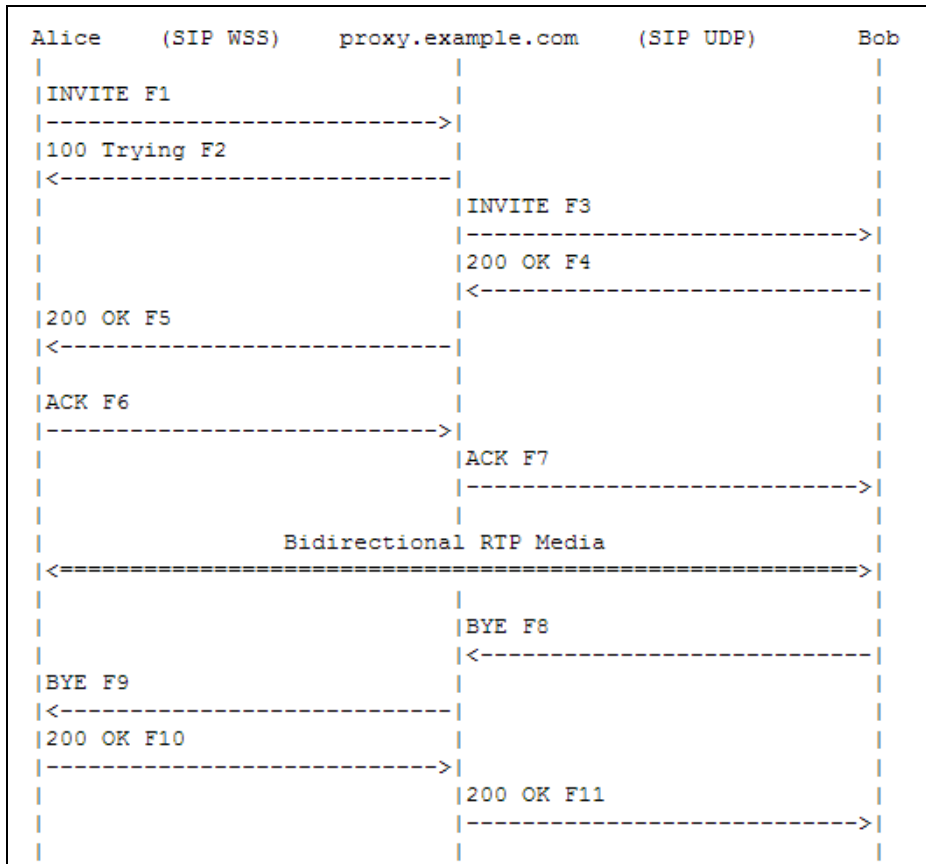

Running WebRTC with SIP

Session Initiation Protocol (SIP)

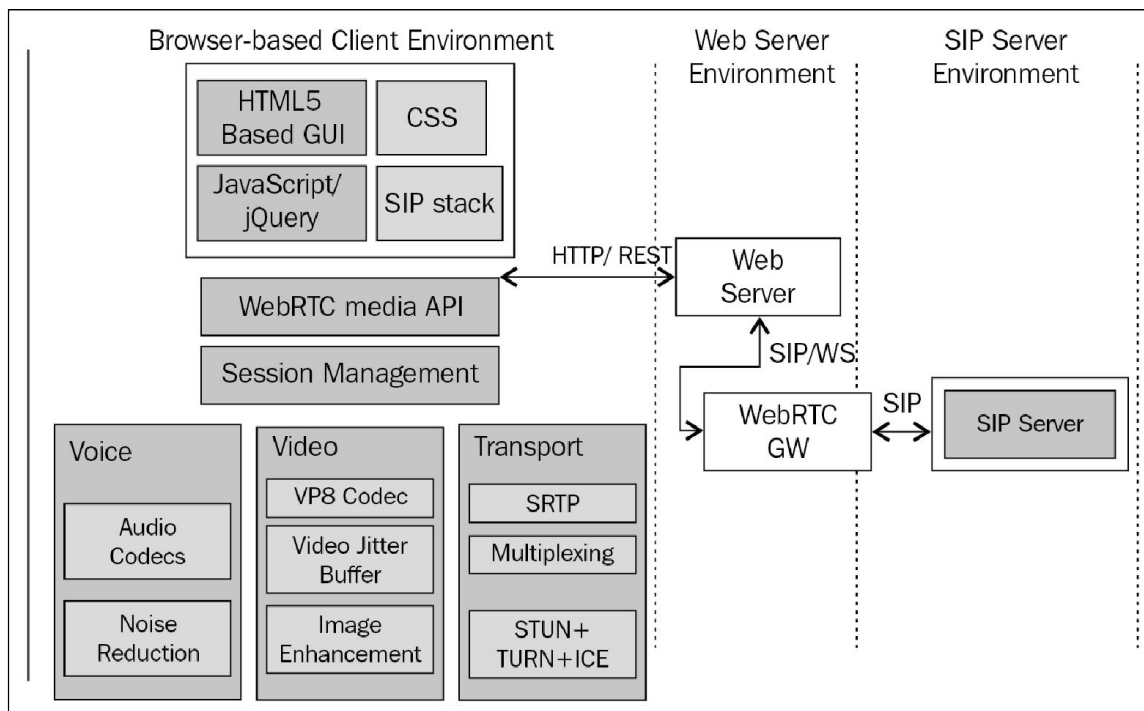

```

The jsSIP WebRTC client

SIP servers

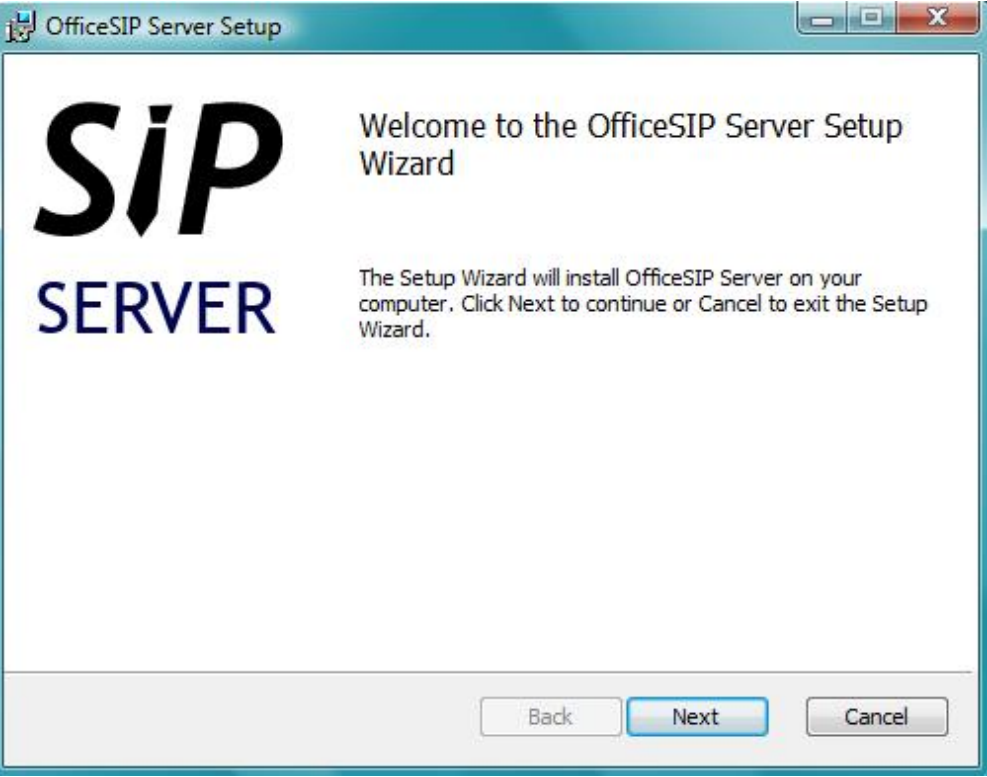

SIPWS to SIPWS

The screenshot shows a web browser window with the URL https://mdns.siphthor.net/sip_settings.phtml?SIPCookie2=1f6b8af1d9afc25c0cf00bfb5ffbf9. The page has a navigation menu with items: Identity, Devices, Settings, Forwarding, DND, Contacts, History, Blink, Credit, Payments, and Support. A user profile bar at the top shows 'altanai bisht < sip:altanai@sip2sip.info >' and a 'Logout' button. Below this, an 'Incoming' call log entry is visible: '2014-03-11 11:55:20' with a phone icon, '0'18" altanaibisht@sip2sip.info (audio,video)', and a 'Server Logs' link with a document icon.

Module Management

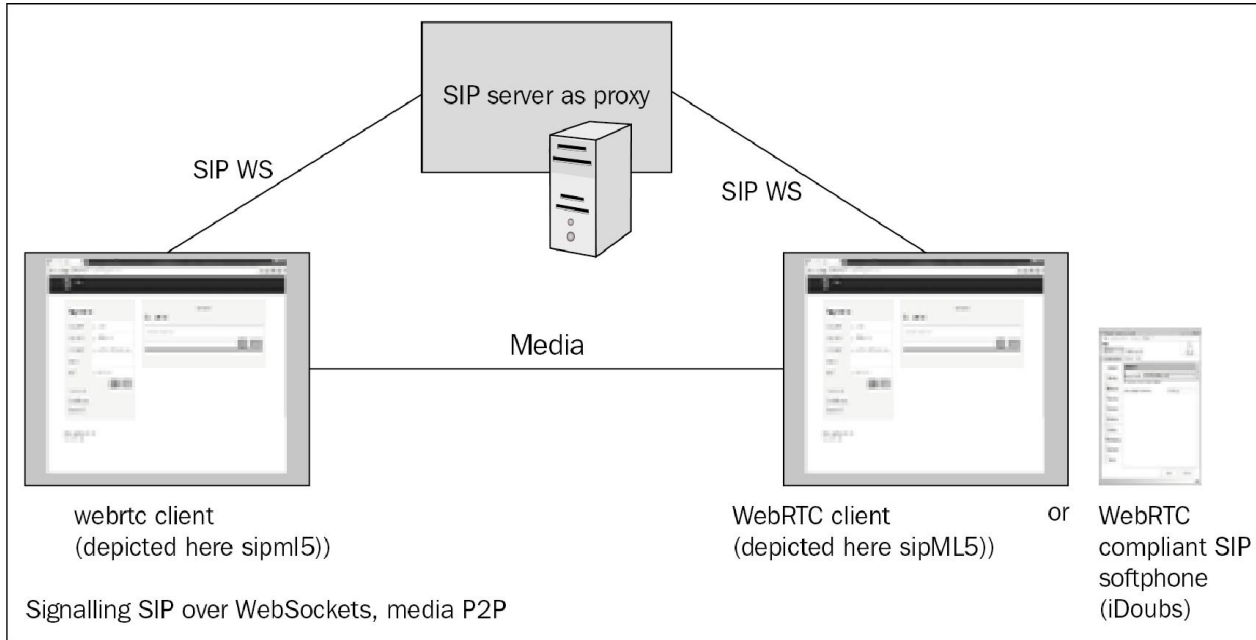

Manage modules in the application. A module is a component implementing certain business logic. The module metadata are located at `app/modules/module_name` folder

Id	Name	Description	Active	Author	Version
1	system	system module, only administrator can access	<input checked="" type="checkbox"/>	Rocky	0.1

The screenshot shows the sipml5.org/call.htm web interface. The page includes a login section with a 'Realim' field set to '10.1.5.11' and 'Login'/'Logout' buttons. Below this is a 'Call control' section with a text input containing '1004' and 'Call'/'HangUp' buttons. A dropdown menu is open, showing options for 'Audio', 'Video', and 'Screen Share'. The browser address bar shows 'sipml5.org/call.htm#'. The page also features a navigation menu with links for 'blog', 'sip', 'tech', and 'webrtc'.

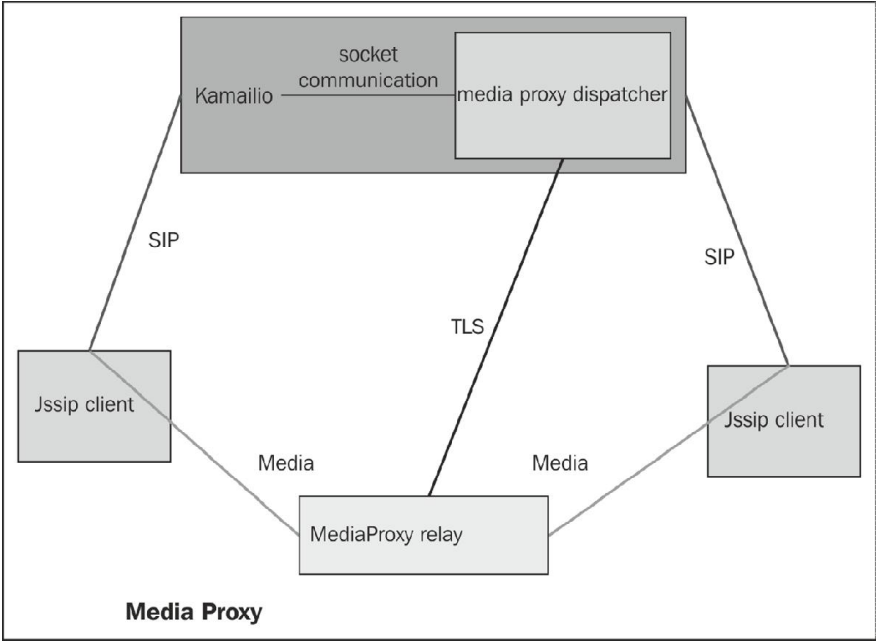

Max-Forwards: 70

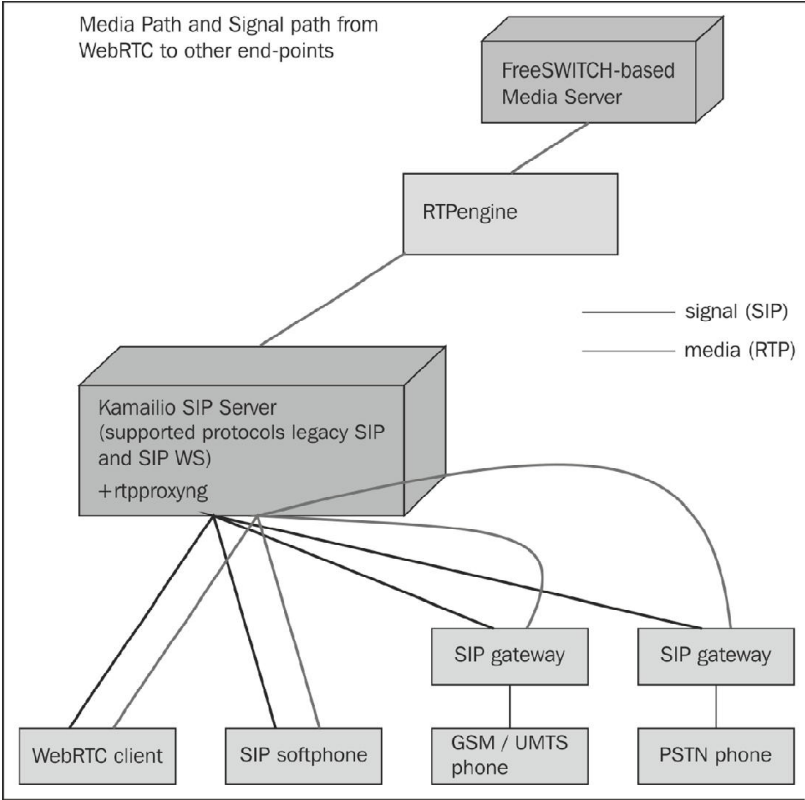

The image shows two browser windows side-by-side. The left window displays the 'Registration' page with a 'Connected' status. It contains a form with the following fields: Display Name (1004), Private Identity (1004), Public Identity (sip:1004@10.1.5.11), Password (masked with ****), and Realm (10.1.5.11). There are 'Login' and 'Logout' buttons at the bottom. The right window displays the 'Call control' page, which is currently in a 'Request Cancelled' state. It features a 'Call' button and a 'HangUp' button. A microphone permission prompt is visible at the top of the right window.

The screenshot shows a desktop sharing interface. The main window displays a code editor with a list of files on the left and a code window on the right. The code contains several lines of text, including "sip:bob@domain.com" and "User online". Below the main window, there is a video feed of a woman in a striped shirt. To the right of the video feed is a vertical toolbar with icons for a camera, a microphone, a screen, and a double-headed arrow. Below the video feed and toolbar are four icons: a computer monitor, a document, a pencil, and a printer.

Unified communicator

Team communicator

The screenshot displays the 'TEAM COMMUNICATOR' web interface. At the top, the browser address bar shows 'Teamcommunicator /profile?name=altanai'. The main header features the 'TEAM COMMUNICATOR' logo. On the left, a user profile for 'Altanai' (sip:altanai@domain.com) is shown as 'Online from WebRTC'. A sidebar menu includes 'Personal Details', 'Status update', 'Call Settings', 'Contacts', and 'Security'. A dropdown menu is open over 'Call Settings', listing 'Blocked List', 'White list', 'Voicemails', and 'Rerouting'. The main content area shows a call in progress with 'Bob Higgins' (sip:bob@domain.com) as the contact. Call controls include 'Call', 'Hold/Resume', and 'Hangup' buttons, with a timer showing 'In Call 00:20:45'. Below the call controls are icons for various communication features. At the bottom left, a contact list shows 'Peter Locs', 'Bob Higgen', 'Paula Brown', and 'John Danken'. A detailed view of 'Bob Higgen' (sip:bob@domain.com) is shown, including his email addresses (bob@gmail.com, bob@yahoo.com, bob@facebook.com), a 'Home PC' status, and a location map. On the bottom right, a call log table displays the following data:

	User	Date	Time	
Incoming	Bob Higgins	12/06/2014	13:00	15 min
Outgoing	Bob Higgins	12/06/2014	12:45	4 min
Incoming	John Danken	12/06/2014	12:30	1 hour 5 min

The Customer Relationship Management system

The screenshot displays a web-based CRM system interface. The browser address bar shows 'webRTCCRM/page1'. The interface is divided into several sections:

- Workplace:** A top navigation bar with options like File, Contacts, View, Create Related, and Customize. Below it is a ribbon with various actions such as New, Edit, Activate, Deactivate, Merge, Detect Duplicates, Send Direct E-mail, Add to Marketing List, Connect, Assign, Share, Copy a Link, E-mail a Link, Run Workflow, Start Dialog, Run Report, Import Data, and Advanced Find.
- My Work:** A sidebar menu with options like Dashboards, Activities, Calendar, Imports, Duplicate Detection, Queues, Articles, Reports, and Announcements.
- Customers:** A sidebar menu with options like Accounts and Contacts.
- Work items:** A table listing tasks with columns for Date, Plan, People, and Priority.

Date	Plan	People	Priority
2 May 2014, 14:00	Call Arcs consulting for meeting	Daniel . K Manager Arcs Co.	High
14 May 2014, 14:00	Submit reports of QB	Shara Williams CEO Domain	Medium
- Work History:** A table listing call logs with columns for Date, Summary, From, and status.

Date	Summary	From	status
15/07/2014	Call Peter to discuss deal	Peter	normal
17/07/2014	Call Richard for reports	Richard	priority
- Contacts:** A section showing contact cards for John Danken and Bob Higgen.
 - John Danken:** sip:john@domain.com, CEO, super co. Ltd. Status: online. Location: Office phone. Location unavailable.
 - Bob Higgen:** sip:bob@domain.com. Status: online. Location: Home PC. Last seen 2 minutes ago.
- Activities:** A small bar chart titled 'My Activities' showing counts for Appointment, Phone Call, Task, and Service Act.
- Navigation Sidebar:** A vertical list of buttons for Clients, Emails, Activities, Activity subjects, Opportunities, Customer contracts, Vendor contracts, Sales Orders, Sales Deliveries, Sales Invoices, Purchase Orders, Purchase deliveries, and Purchase Invoices.

Retail services

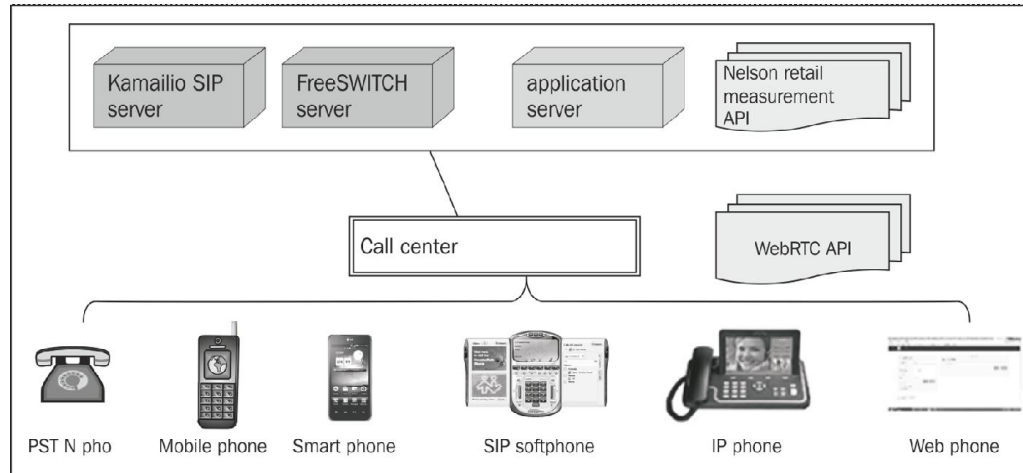

WebRTC online marketing centres

The screenshot shows a web browser window with the URL `Shoponline/brandsall.html`. The website has a green header with "Shop online" and a search bar. A black banner below the header reads "END OF SEASON SALE! UP TO 55% OFF". The main navigation bar includes categories: Electronics, Clothes, Home decor, Home decor, and Home decor. On the left, there are filters for Payment Method (VISA, MasterCard, Maestro, American Express, Discover, United Card of Benet), Color, Discount (Upto 10%, 10%-20%, 20%-30%, 30%-40%, 40%-50%, More Than 50%), and Availability (Exclude Out of Stock). A "Clothes" dropdown menu is open, listing categories like Men's Clothing, T-Shirts, Jeans, etc. The main content area features product promotions for Jack & Jones (70% off) and Lee (40% off). A WebRTC call overlay is active in the bottom right, showing a "click to call" button, a "In call 0012:32" timer, and a video feed of a smiling female customer service representative. Social media icons for Facebook, Twitter, Google+, and YouTube are also visible.

Agent Frina Chat Window:

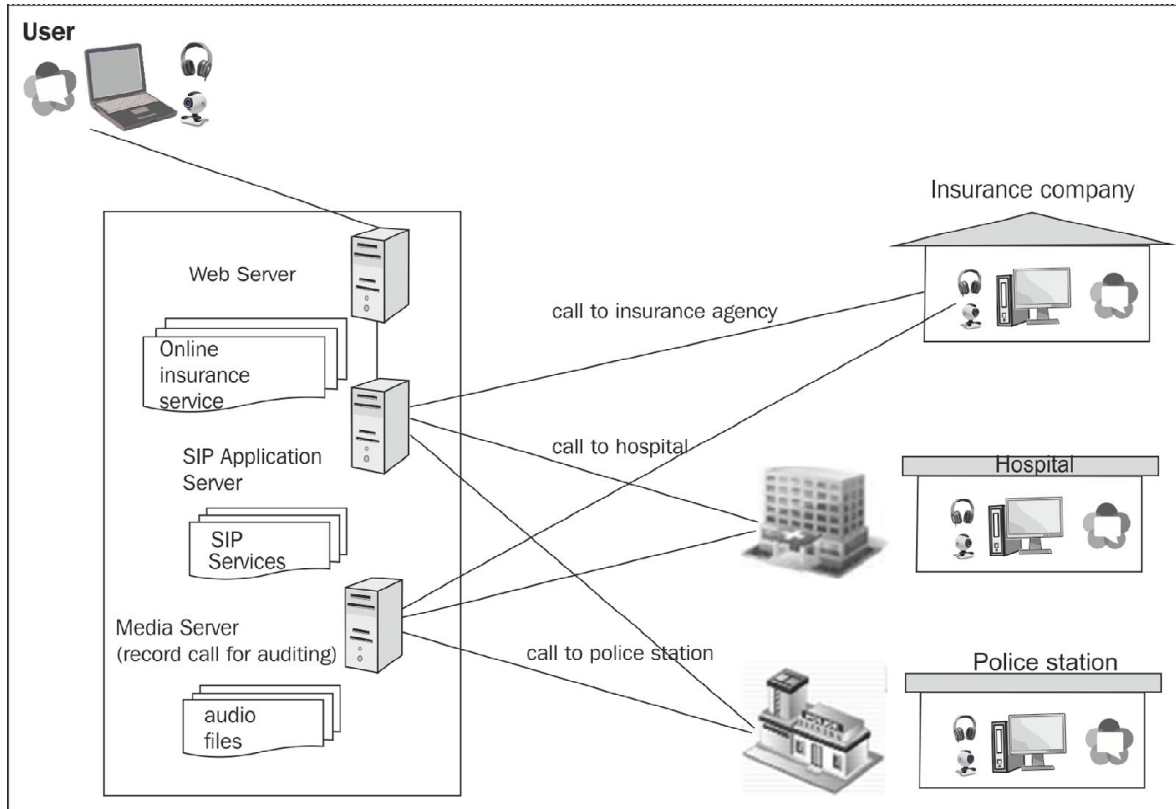

The chat window is titled "Agent Frina" and contains two profile pictures. The message history shows:

Altanai: Please explain me the advantages of opening classic account over max savings account ?

Frina : Sure , classic account gives 3 % returns while max savings account has 7%

Buttons: "Send" (dark blue) and "Ok. Anything else ?" (light green). At the bottom, there are icons for a headset, a megaphone, a document, and a smartphone.

Insurance claims

Remote management

Surveillance

The screenshot displays a web browser window titled "Car Racing WebRTC game" with the address bar showing "WebRTCSurveillance/viewofhome". The main content area is titled "Surveillance over WebRTC application".

On the left side, there is a vertical menu with four orange buttons: "Main Menu", "Set up Alarm", "Contact Admin", and "Recordings". Below these buttons are two charts:

- Network statistics:** A 3D line chart with a y-axis from 0 to 6 and an x-axis with categories: hallway, corridor, first floor, and terrace. Four lines represent different data series.
- Net Traffic:** A bar chart with a y-axis from 0 to 160. The bars are colored green and red, showing traffic volume over time.

The main area contains four video feeds, each with a control panel below it:

- Hallway:** Shows a hallway with framed pictures on the wall. Control panel includes "Replay", "Stop", and a "0:5" timer.
- Corridor:** Shows a wooden toy tank on a blue surface. Control panel includes "Replay", "Stop", and a "0:5" timer.
- First floor:** Shows a room with a large painting on the wall. Control panel includes "Replay", "Stop", and a "0:5" timer.
- Terrace:** Shows two wooden chairs. Control panel includes "Replay", "Stop", and a "0:5" timer.

WebRTC games

Two-player games

The screenshot shows a web browser window with the address bar containing `gamewebrtc8080/webrtcgames/carracing.jsp`. The main content is a chess game interface titled "Master CHESS".

Game Interface:

- Menu:** Game, Move, Themes, Options, View, Help.
- Toolbar:** New, Open, Save, Print, Rooms, Themes, Options, Draw, Resign, Undo, Rotate.
- Chessboard:** An 8x8 board with columns labeled A-H and rows labeled 1-8. White pieces are on the bottom half (rows 1-2) and black pieces are on the top half (rows 7-8).
- Player Information:** "PLAYERS 0/12" is shown at the top right of the board area. Below it, "Player 1 ALTANAI" and "Player 2 KAKA" are displayed with their respective video feeds. Player 1's video feed shows a woman, and Player 2's shows a man. There are controls for video, mute, and end.
- Game State:** A timer shows "20:00" for Player 1 and "19:12" for Player 2. A green arrow points to the right.
- Buttons:** "Offer Draw", "Return Match", "Give up", and "Back to Lobby".
- Users on this Table:** A section at the bottom of the board area.

IPTV integration and streaming

Streaming movies between peers

The screenshot shows a web browser window with the address bar containing "Streammoviesnow/alicemovieview.jsp". The main content area features a large video player displaying a scene from the movie "Toy Story" with Buzz Lightyear and Woody. The video player includes a progress bar at the bottom showing a current time of 1:20:58 and a total duration of 1:48:52. Above the video player, the text "Stream now" is displayed in a large font, with "Streaming now : Toy Story" below it. To the right of the video player is a chat window with four video thumbnails of participants. The chat messages are:

- Leonard: "The animation here is so awesome"
- jill: "Yea, its produced by Pixar Animation Studios and released by Walt Disney"
- ALTNANI: "Okay"

The chat window also includes a "Send" button and a list of system icons at the bottom.
