

Chapter 1: React Component Patterns

```
16     expandOrCollapse() {
17         // toggle expanded: true becomes false, false becomes true
18         this.setState({expanded: !this.state.expanded});
19     }
20
21     render = () => (
22     1x     <View style={styles.container}>
23         <HelloText onPress={() => this.expandOrCollapse()}>
24             Hands-On Design Patterns with React Native
25         </HelloText>
26         <HelloText onPress={() => this.expandOrCollapse()}>
27             Chapter 1: React Component Patterns
28         </HelloText>
```

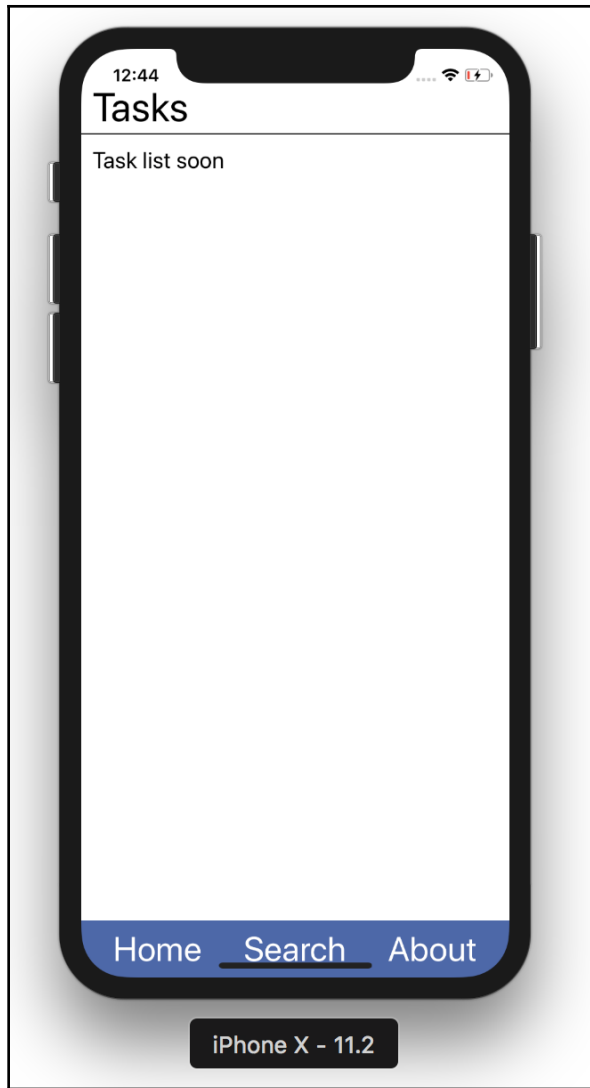

Chapter 3: Styling Patterns

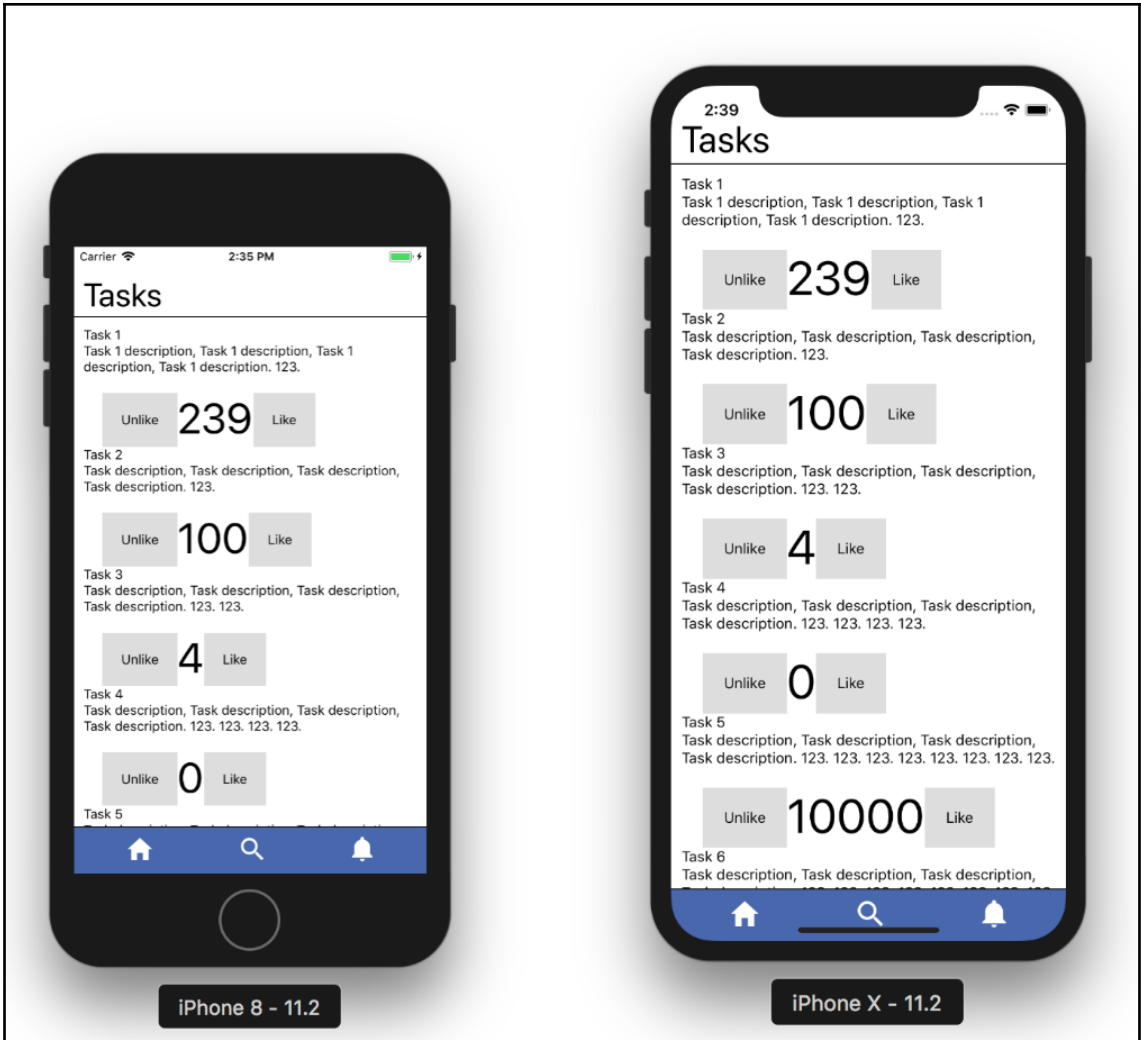

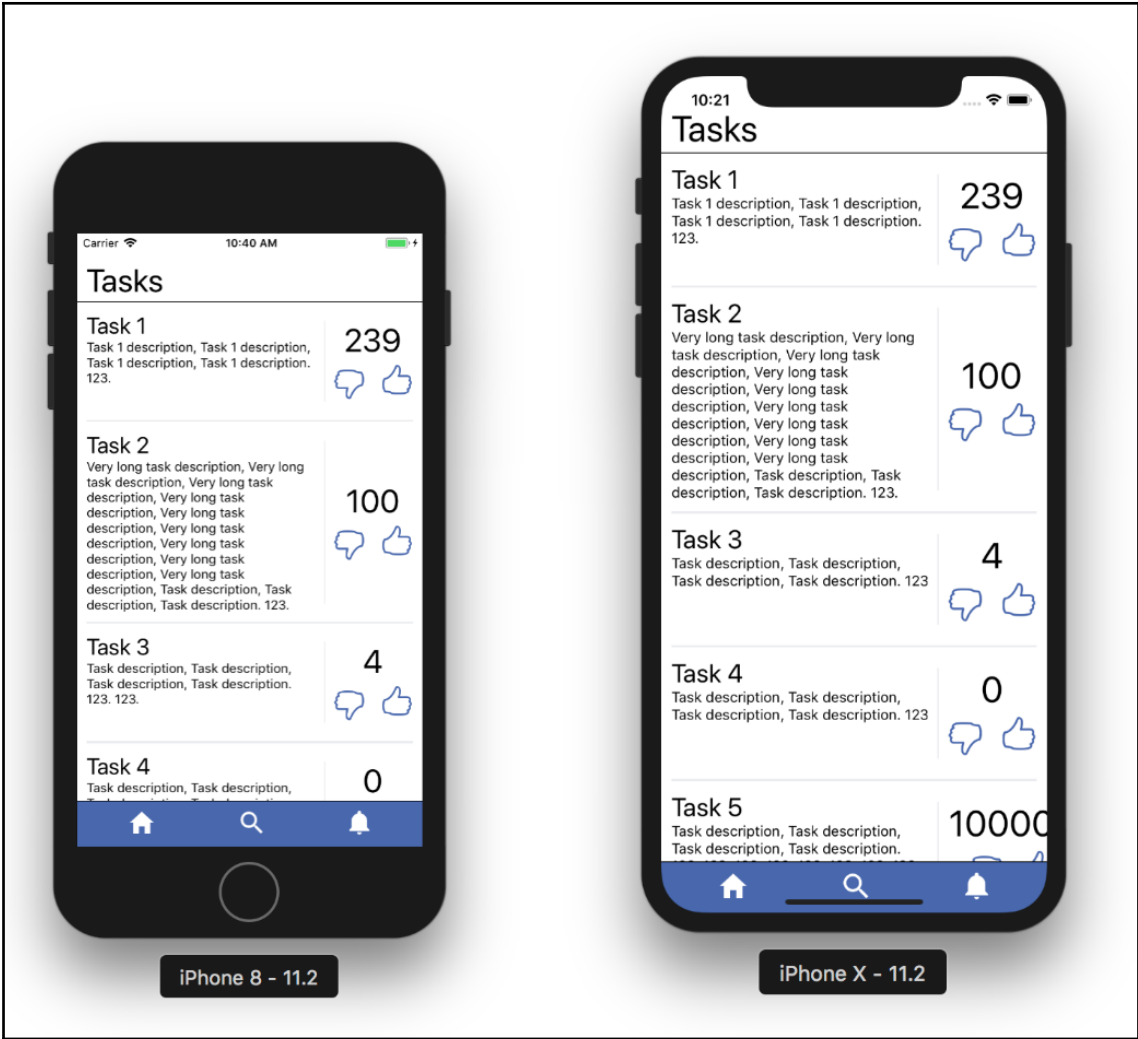

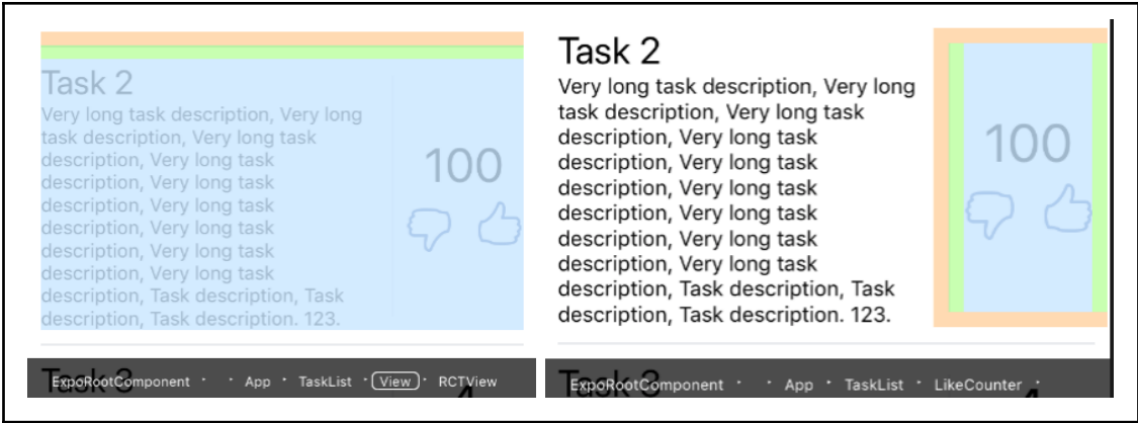

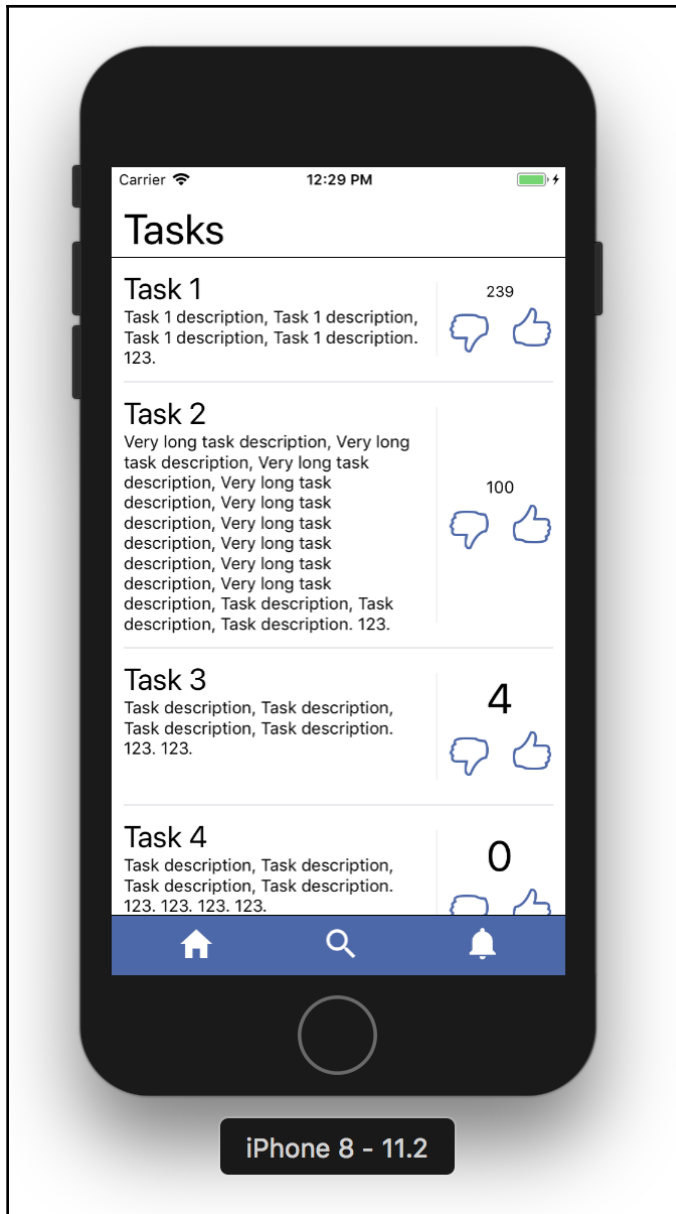

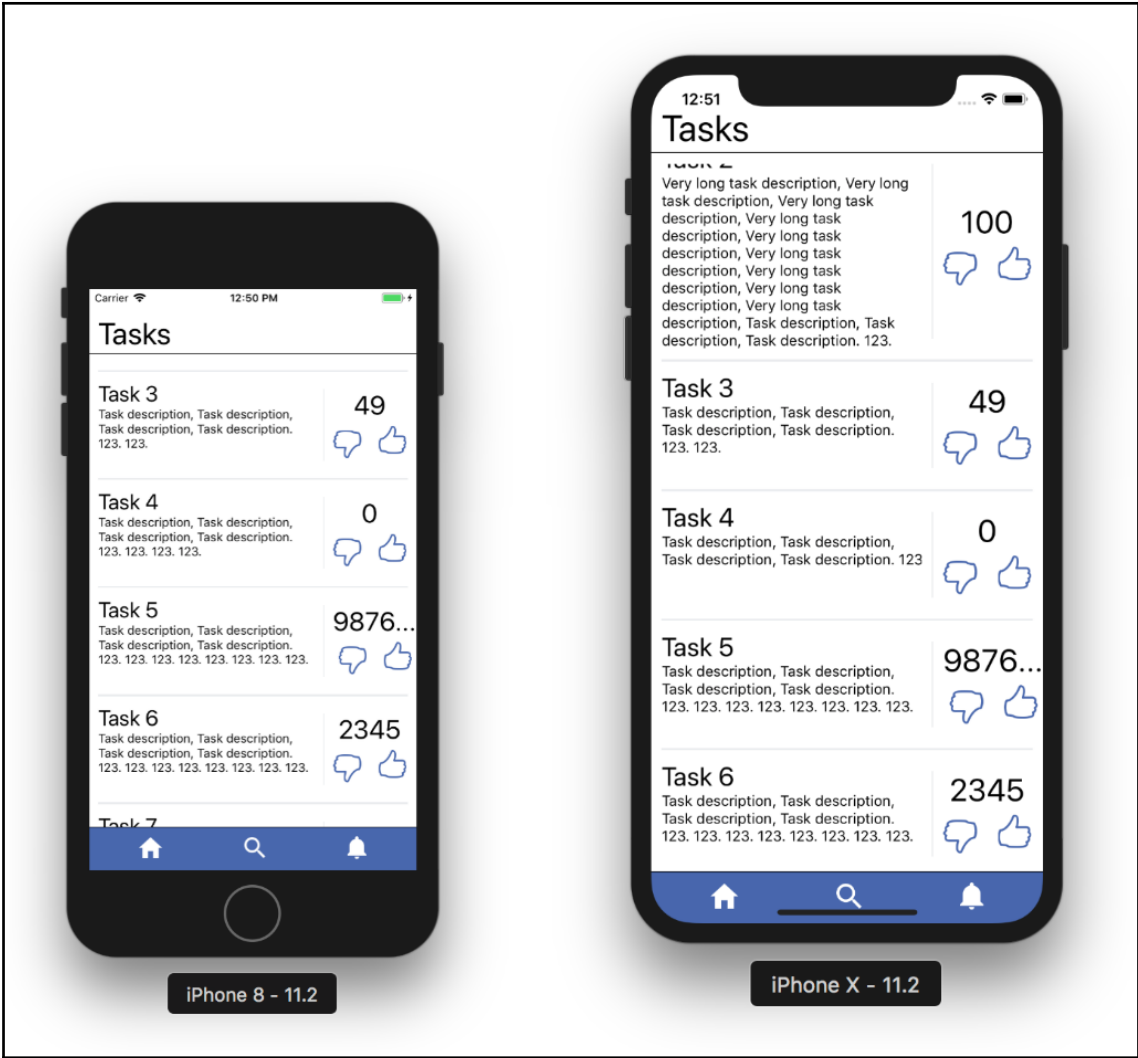

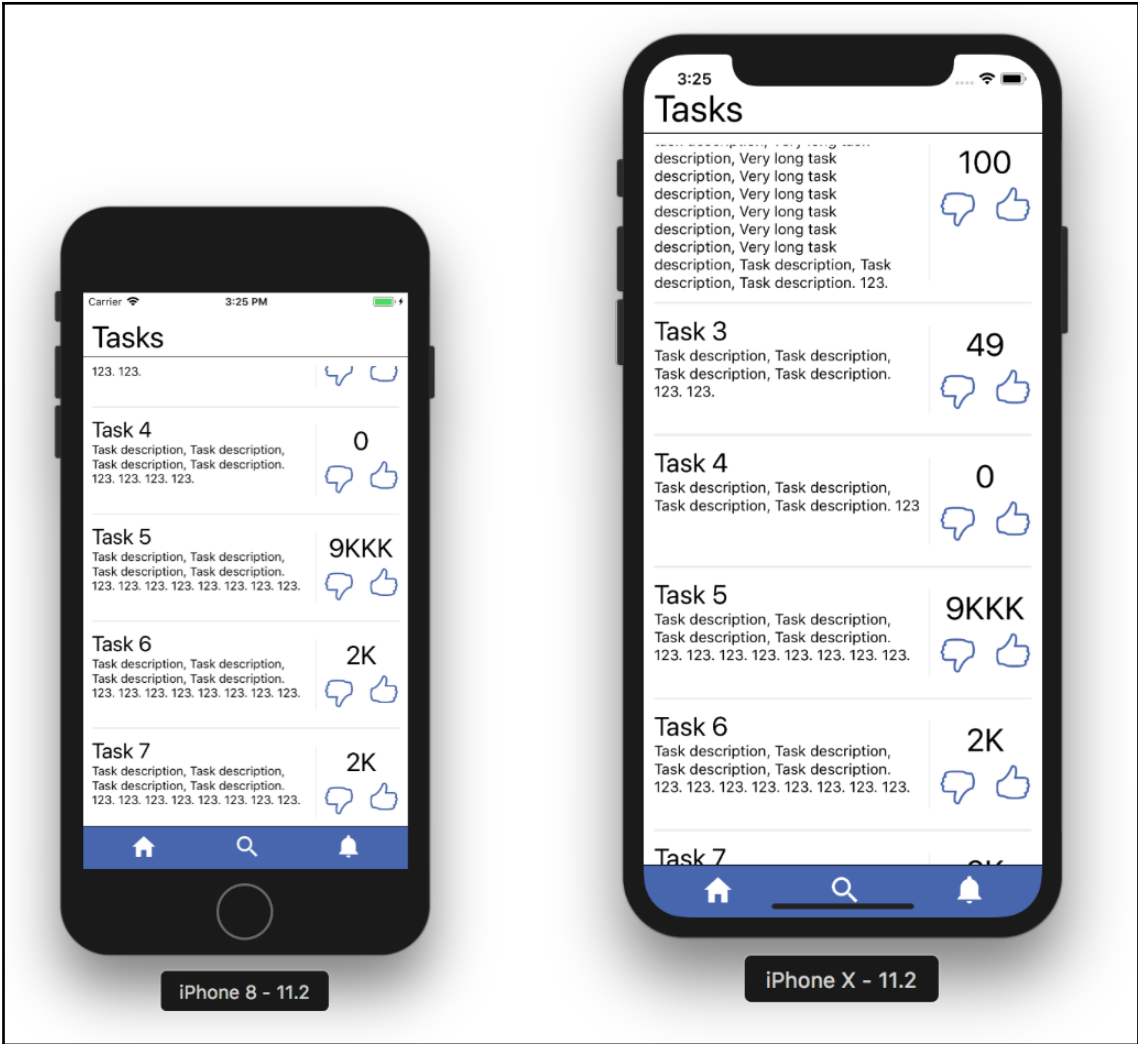

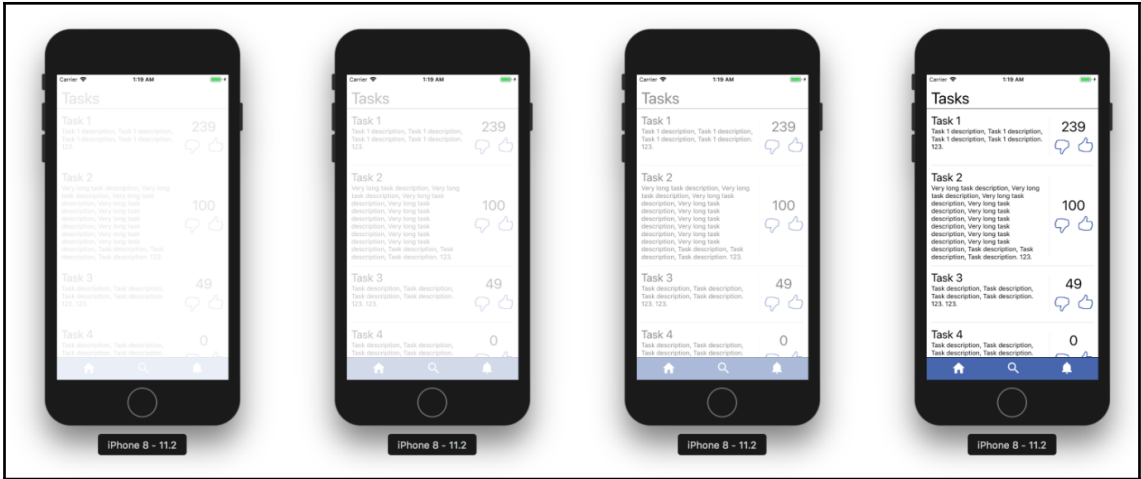

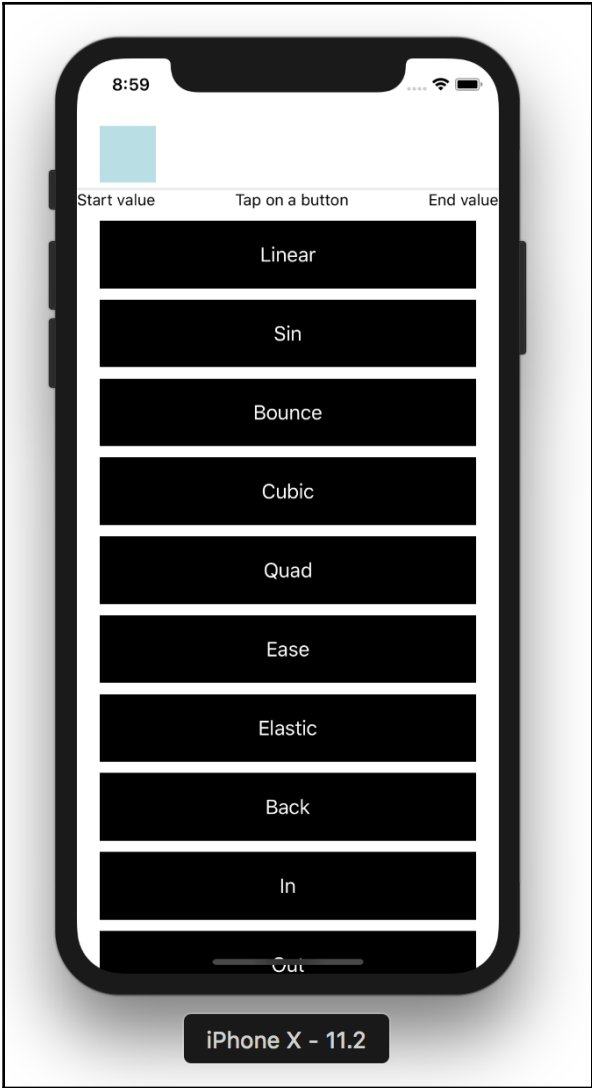

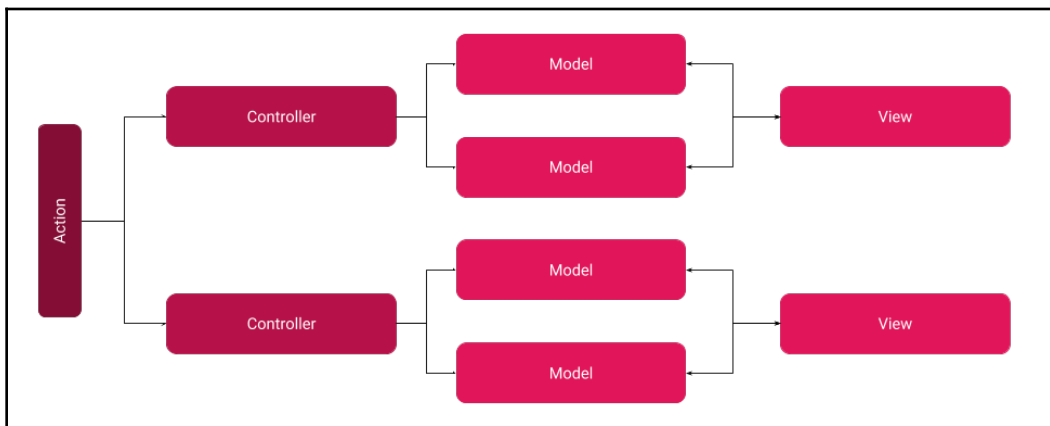

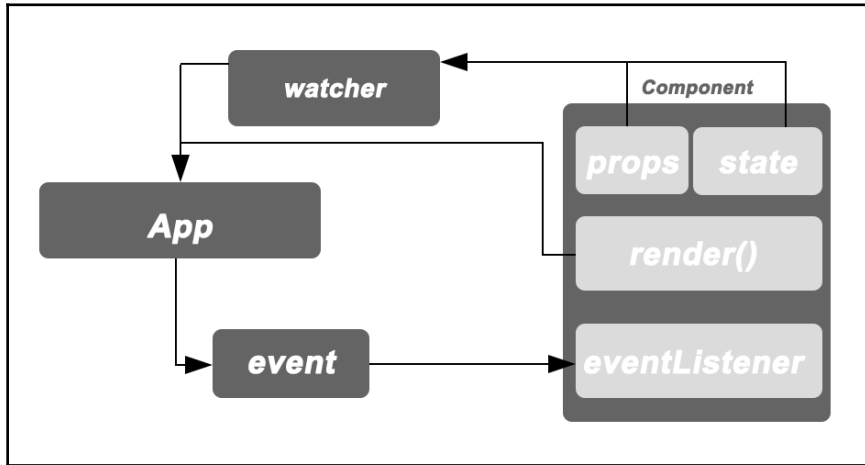

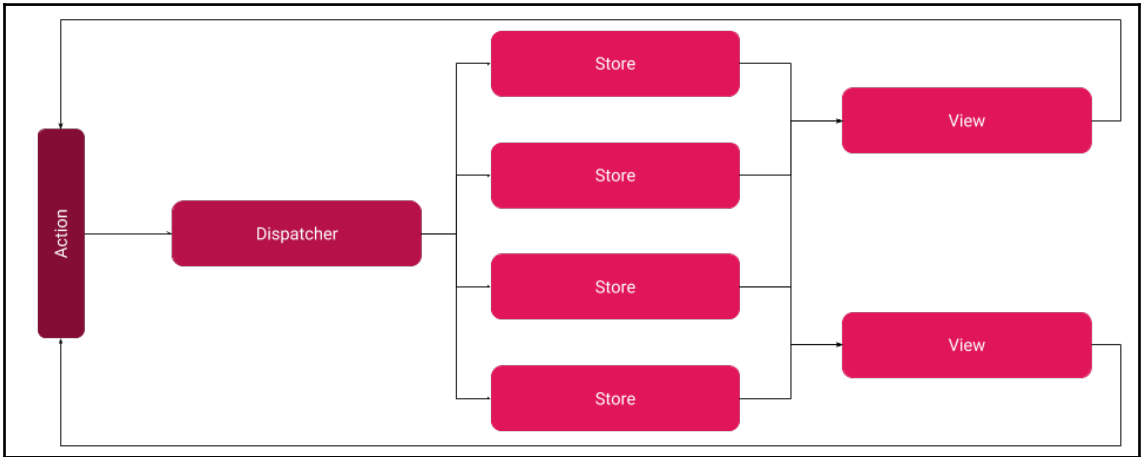

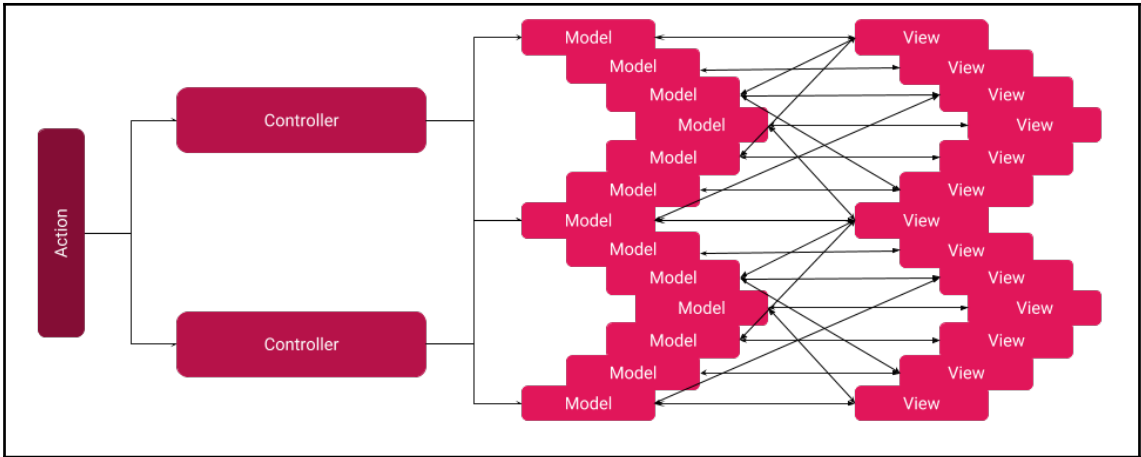

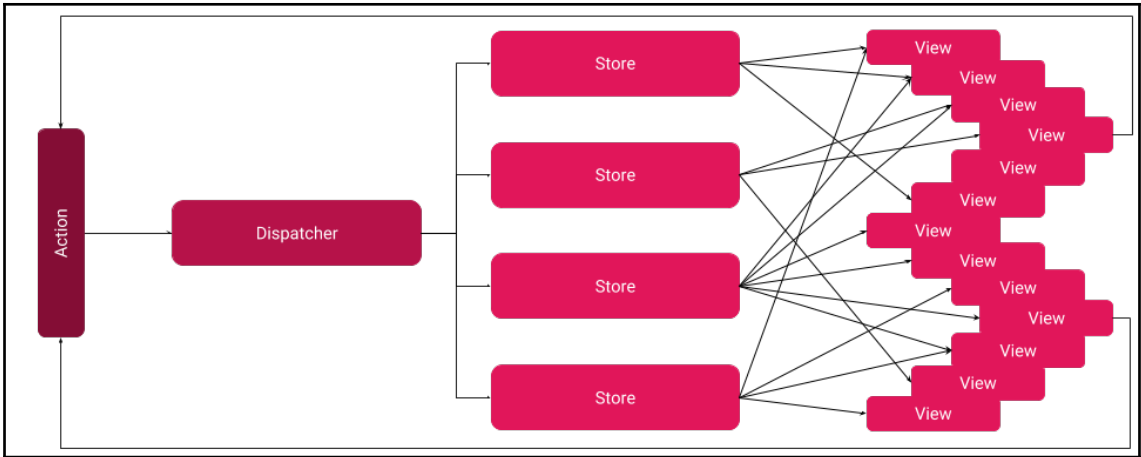

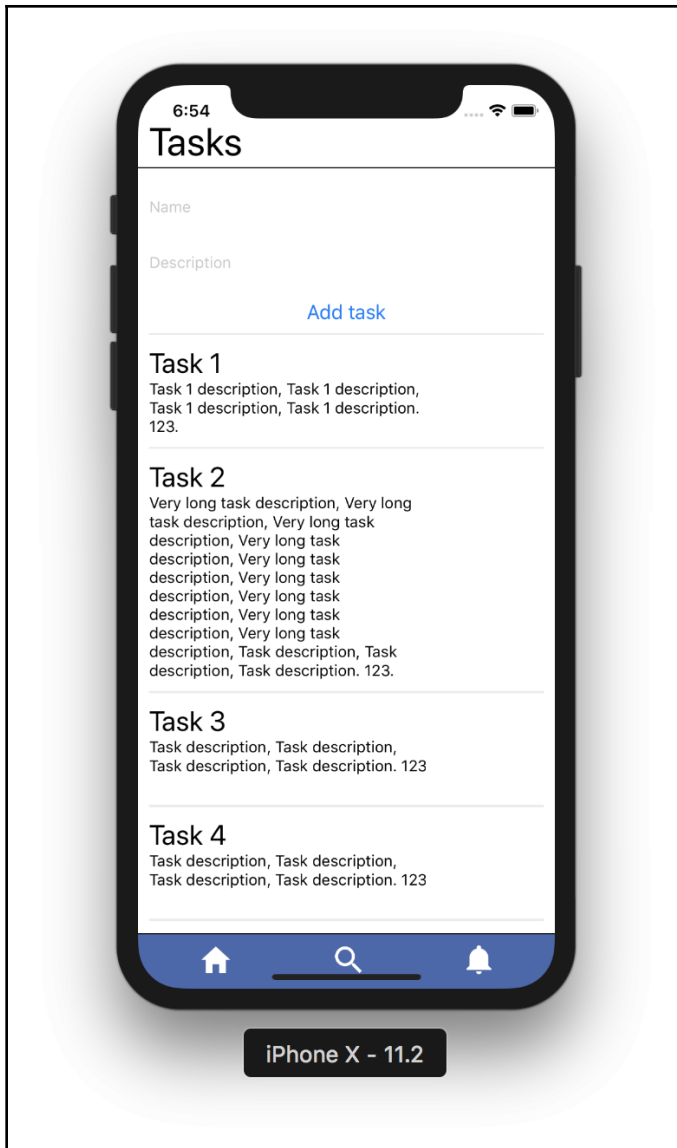

RAM	JSC	Views	UI	JS
204.52	0.00	211	60	45
MB	MB	215		

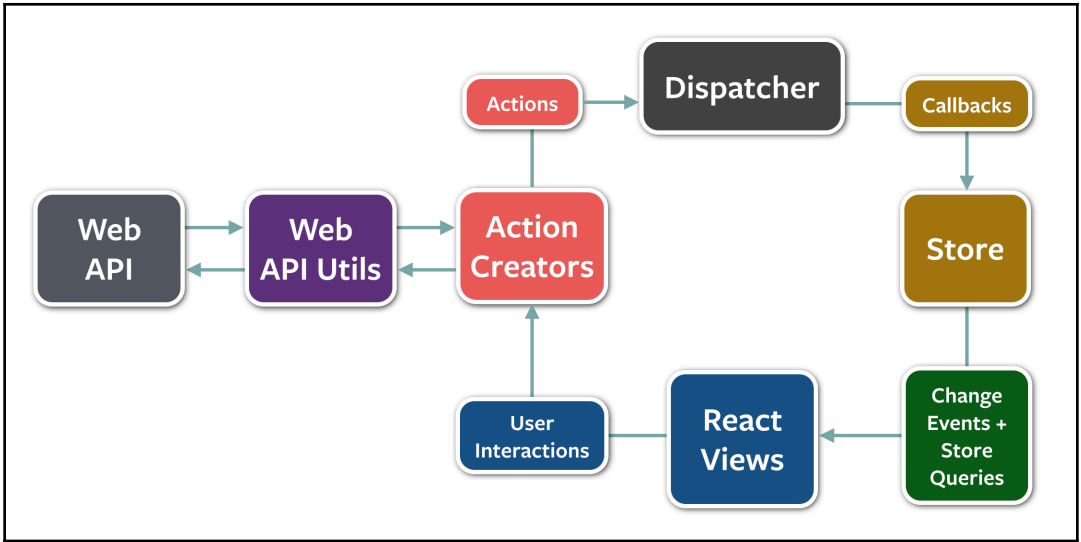

Chapter 4: Flux Architecture

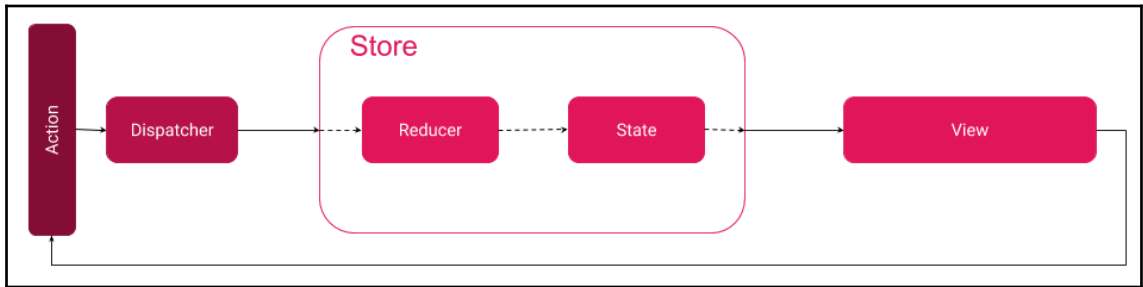

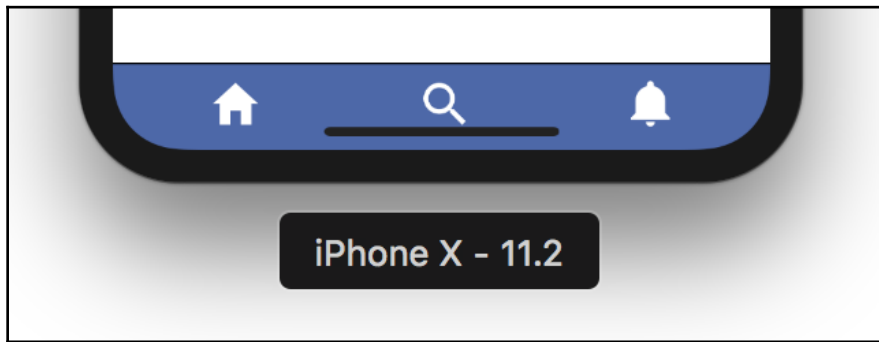

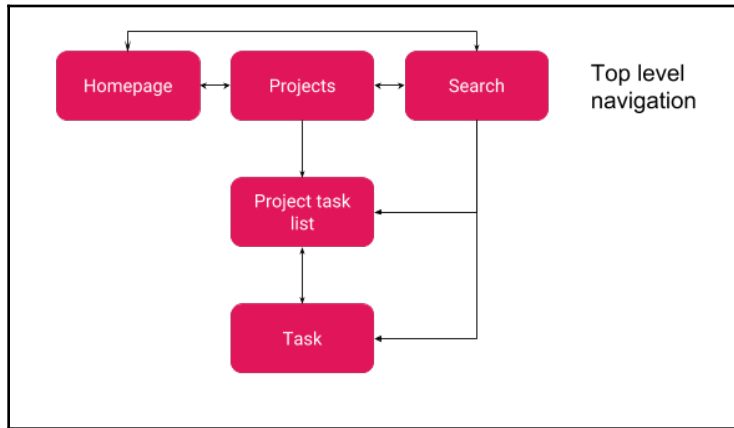

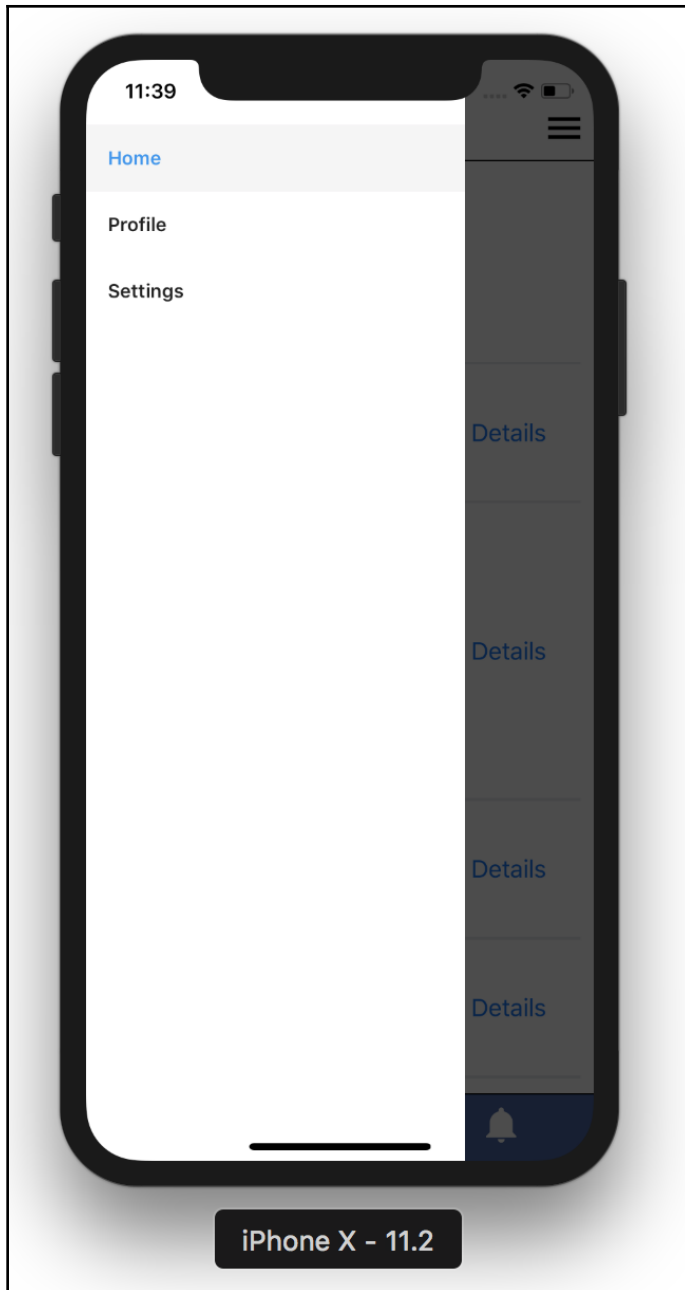

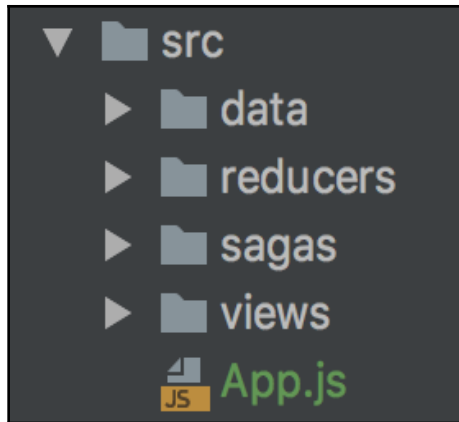

Chapter 5: Store Patterns

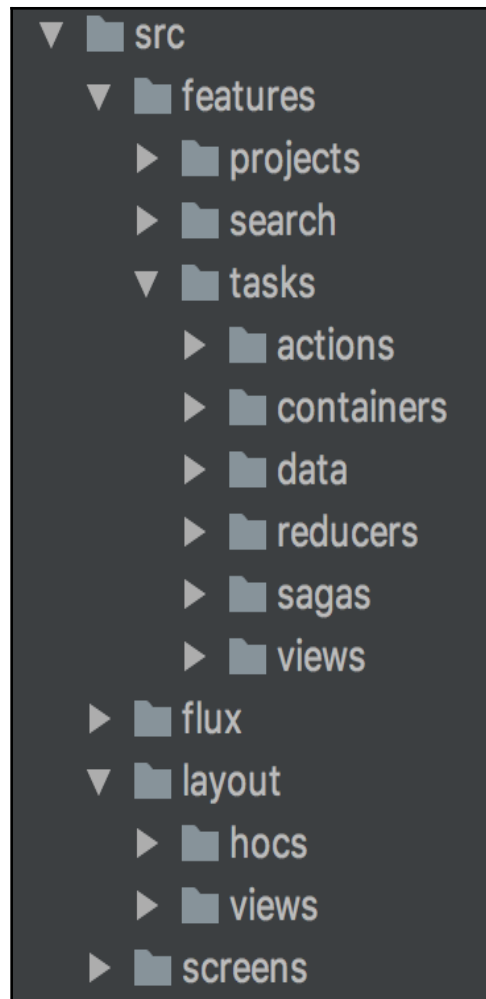

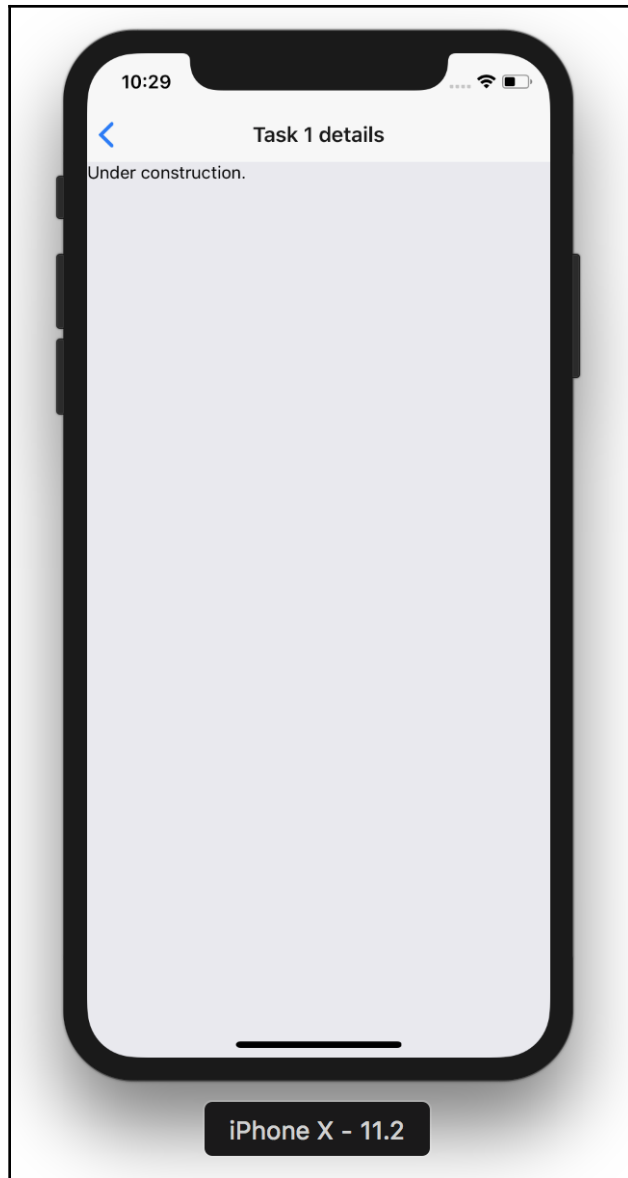

Chapter 7: Navigation Patterns

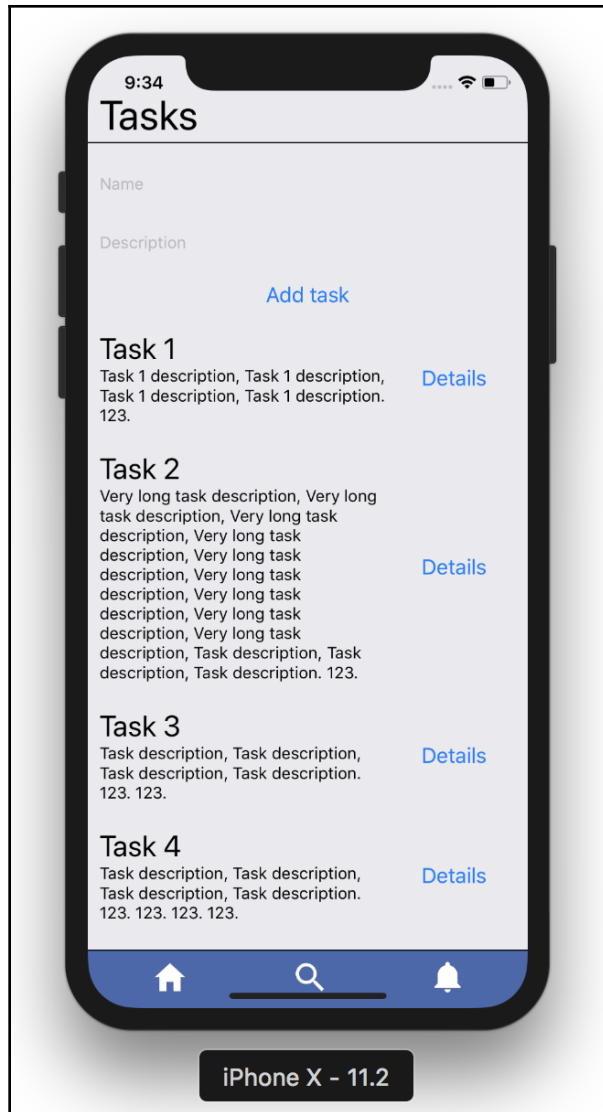

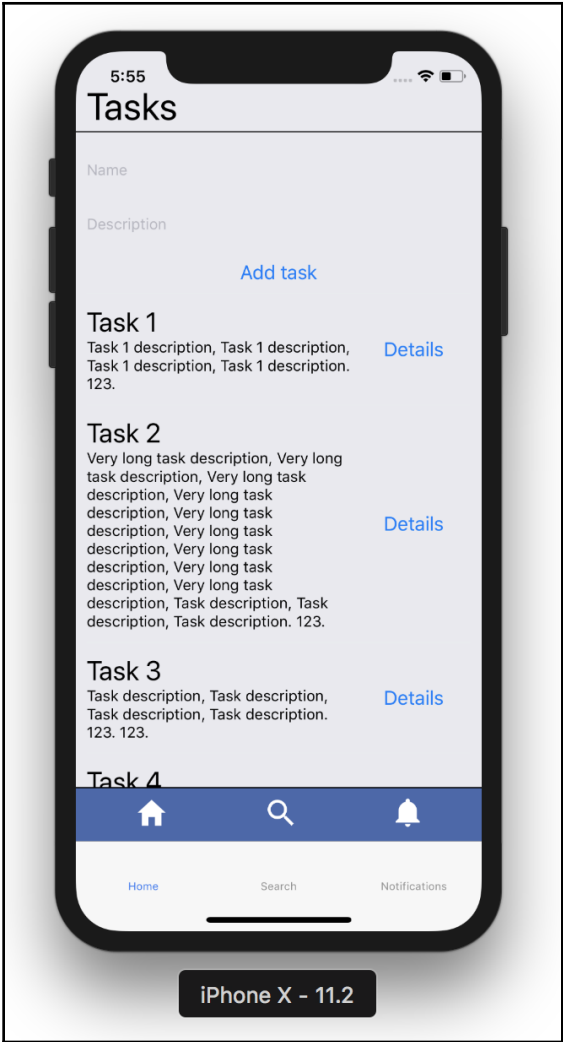

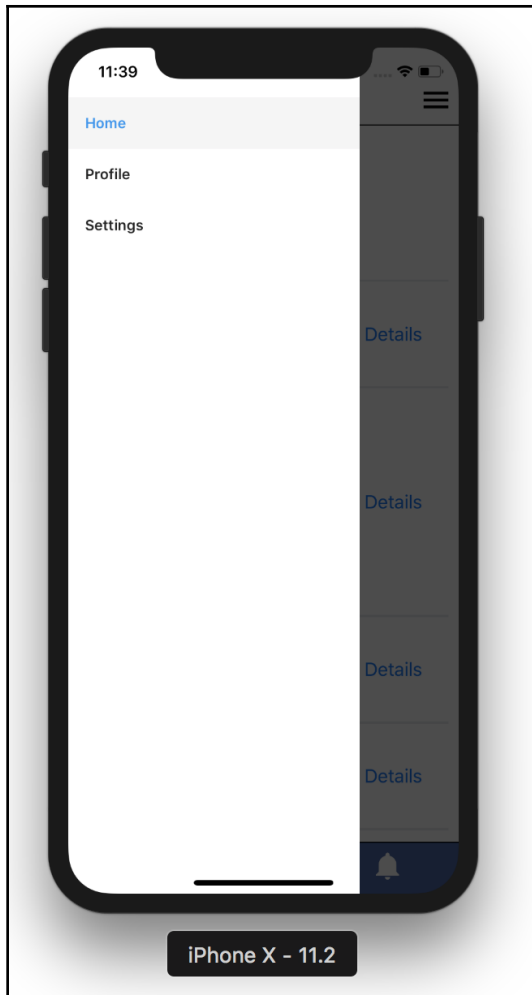

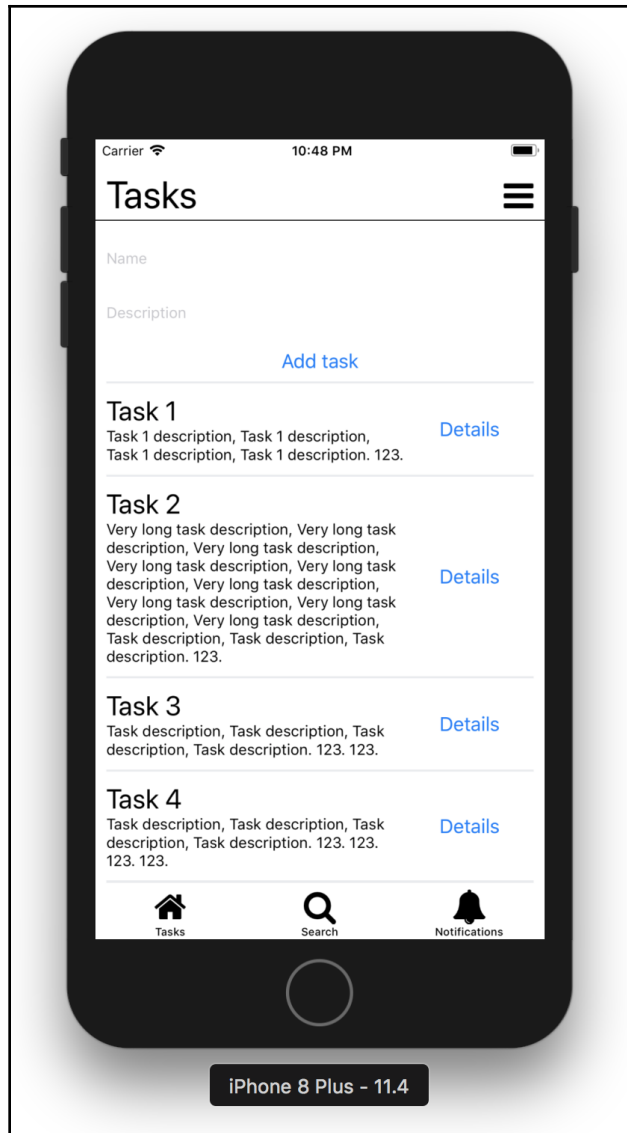

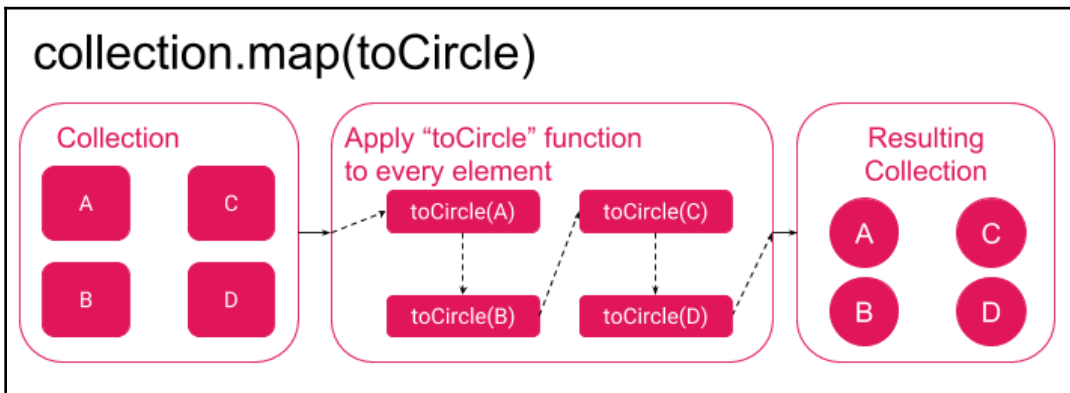

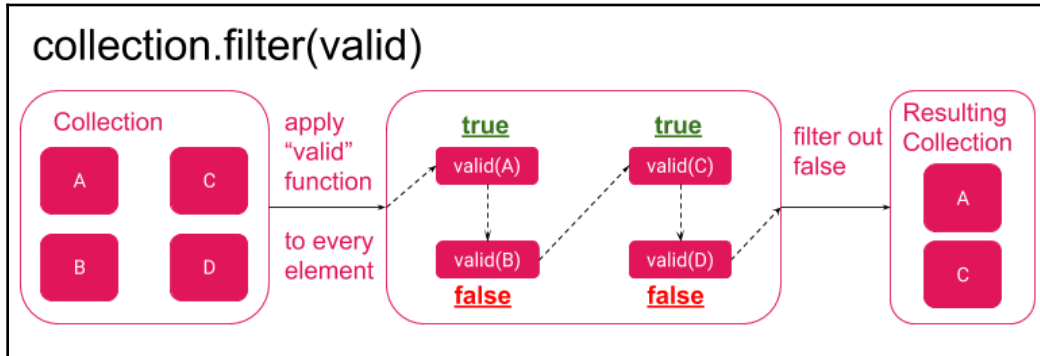

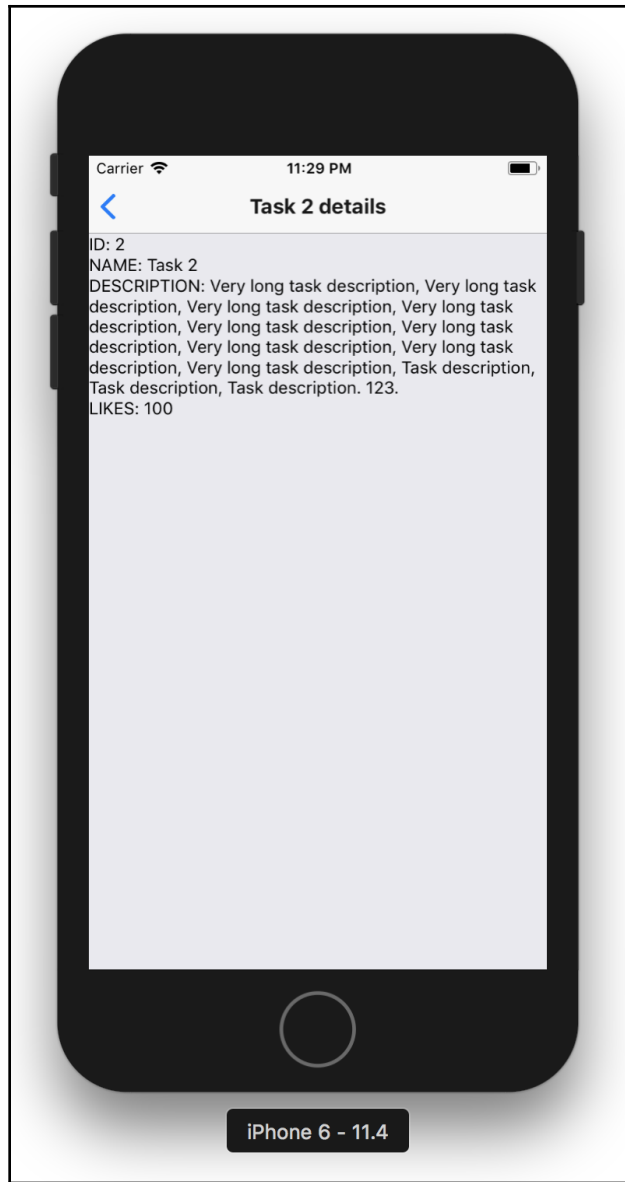

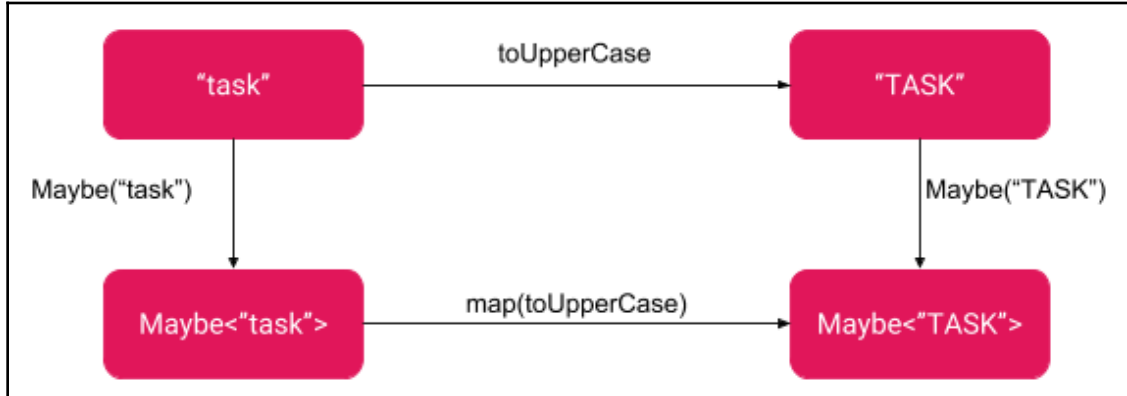

Chapter 8: JavaScript and ECMAScript Patterns

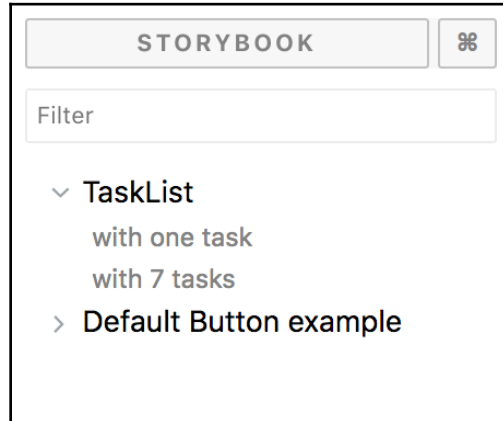

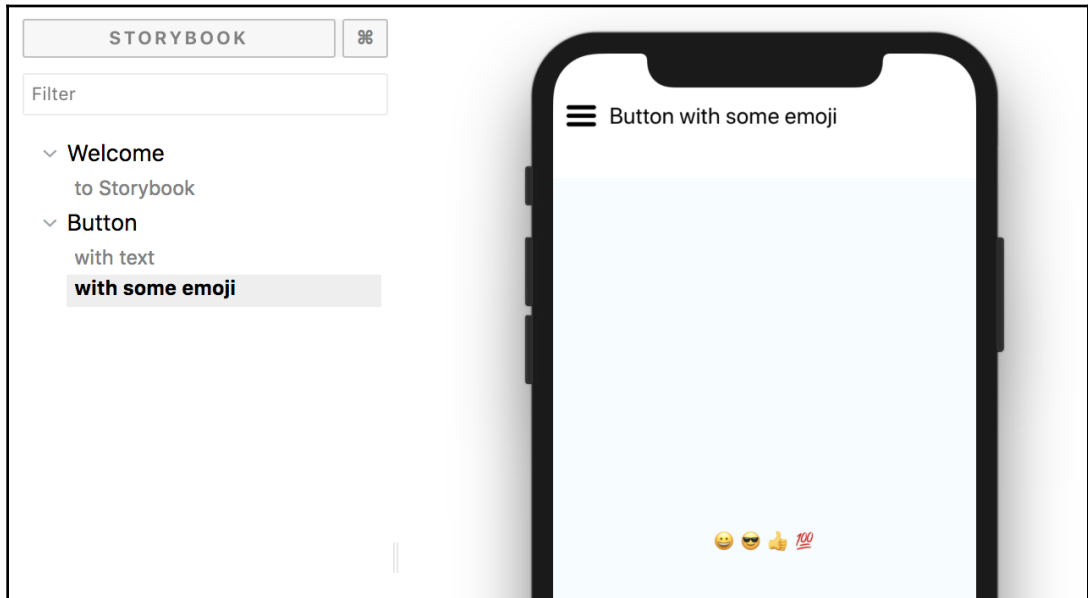

Chapter 9: Elements of Functional Programming Patterns

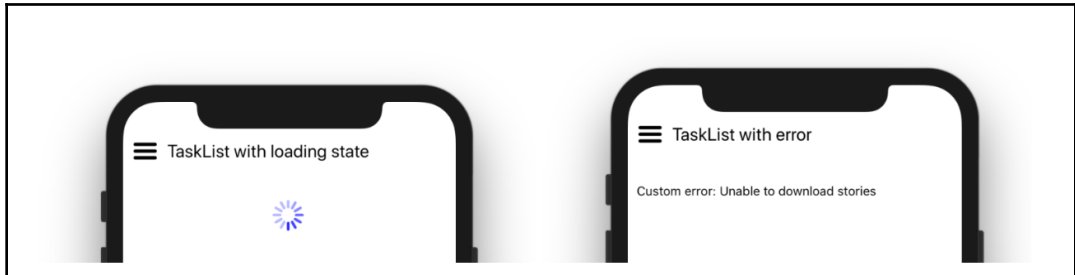

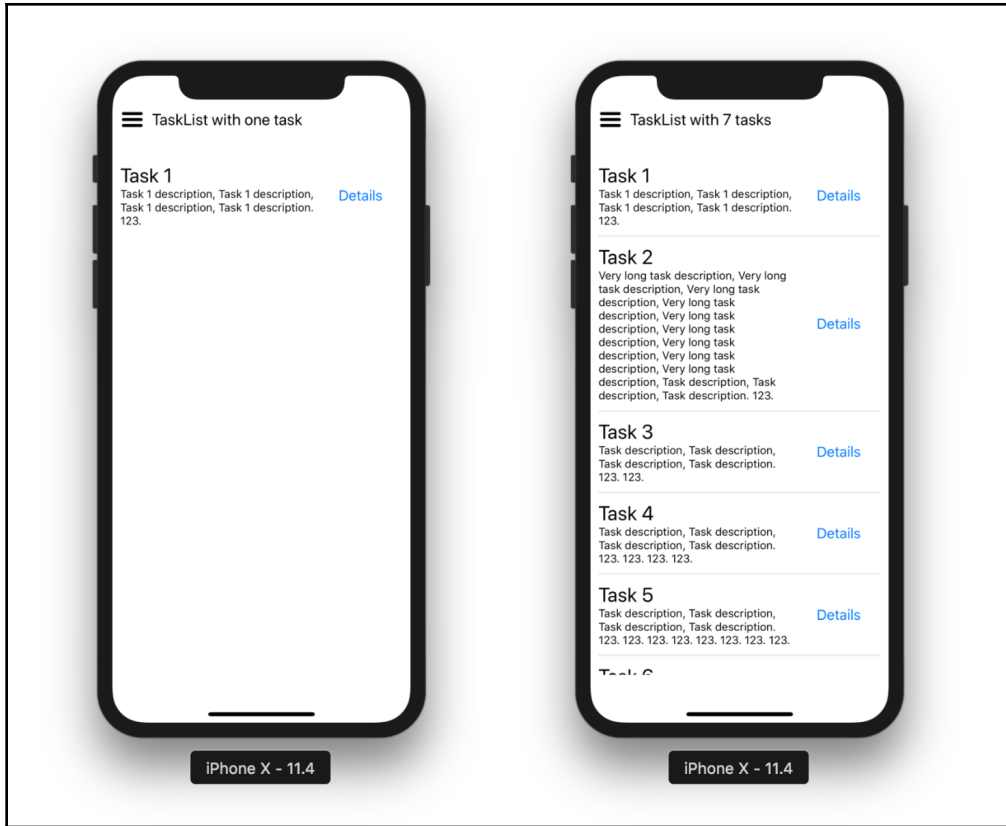

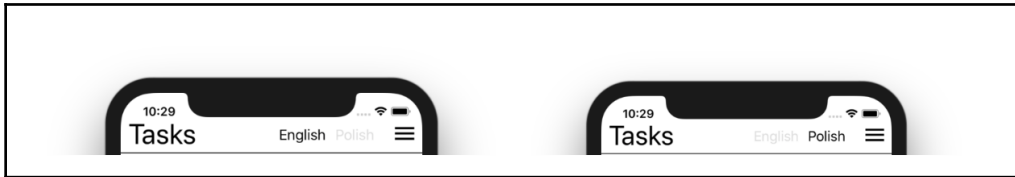

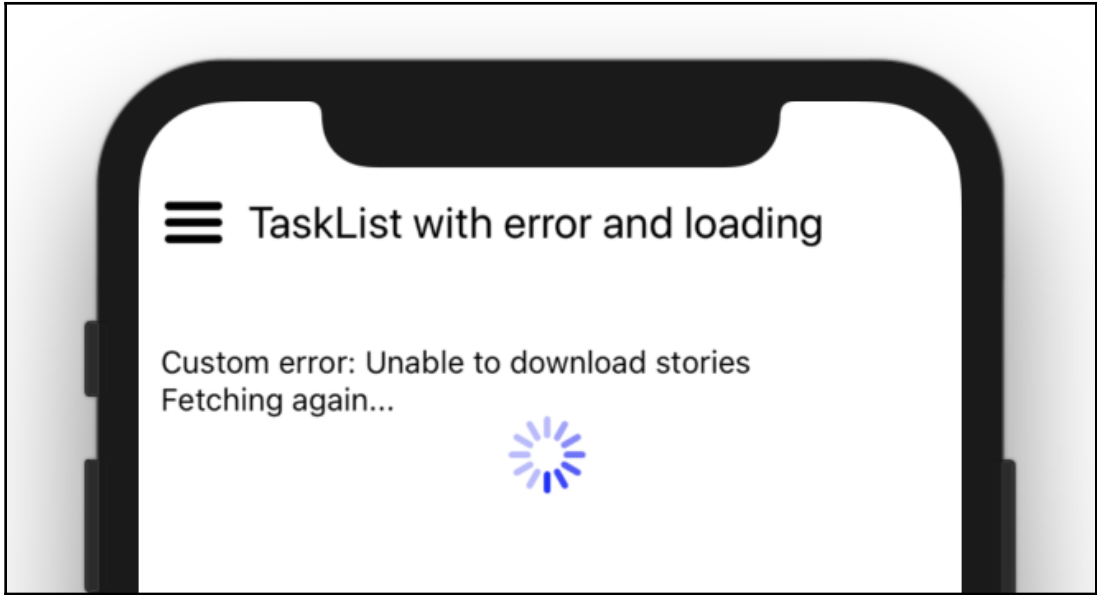

```
var React;
if (__DEV__) {
  React = require('React-dev');
} else {
  React = require('React-prod');
}

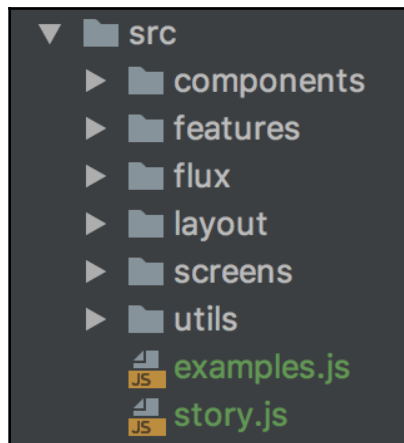

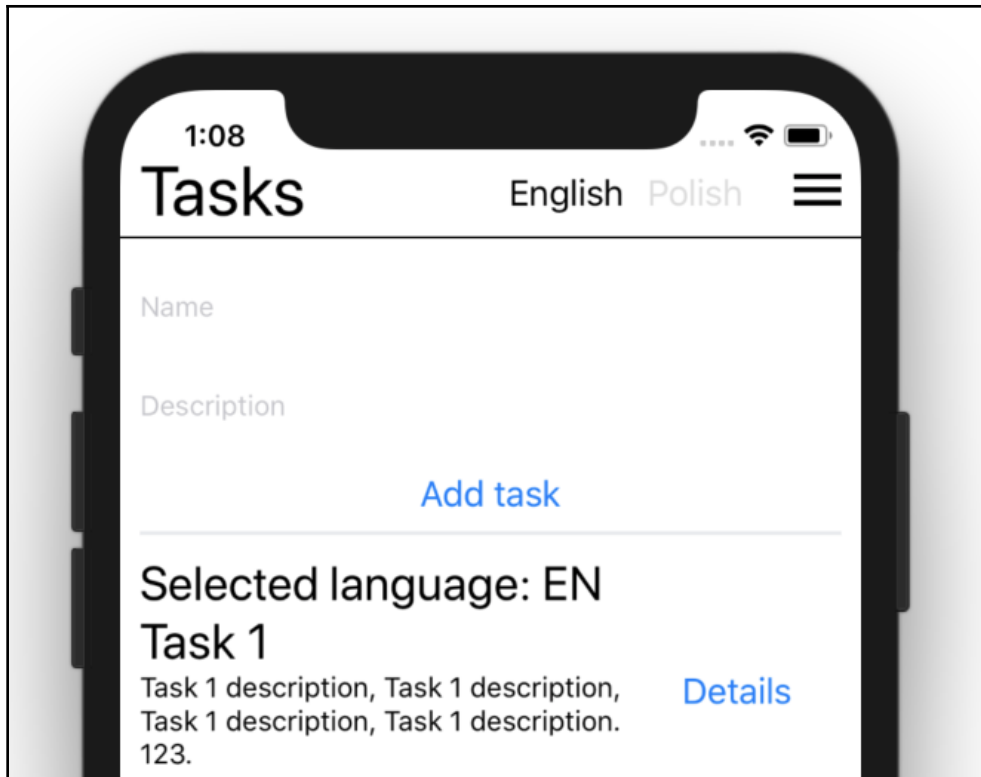

// TODO(T18802204): codemod all remaining callers in www
React.createClass = require('create-react-class/factory')(
  React.Component,
  React.isValidElement,
  new React.Component().updater,
);
React.PropTypes = require('prop-types');
```

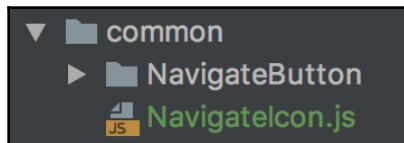

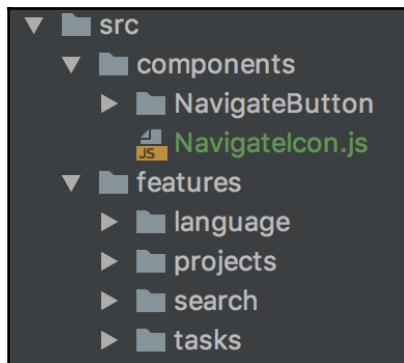

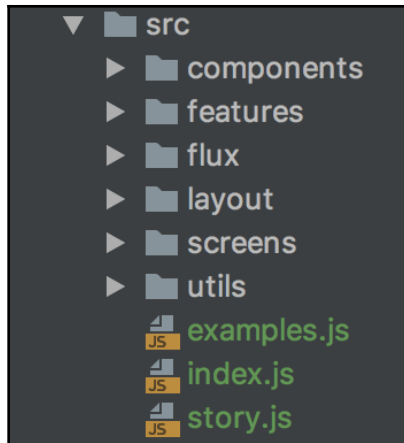

Chapter 10: Managing Dependencies

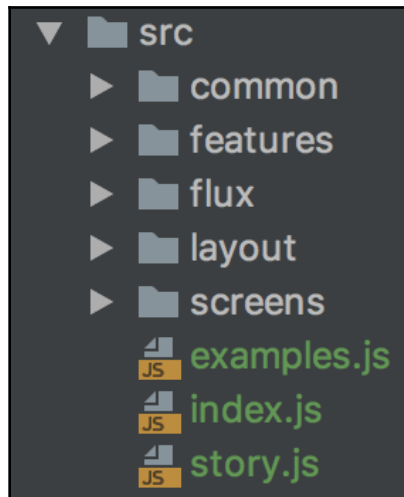

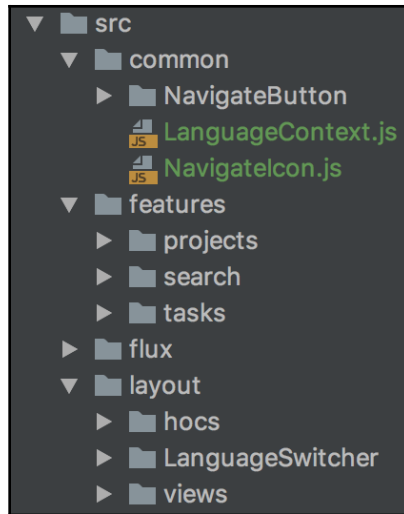

Chapter 11: Type Checking Patterns
