Hello, world!
This is our first sample example that will be more awesome in the next chapters!
Bootstrap by Example, Chapter 1

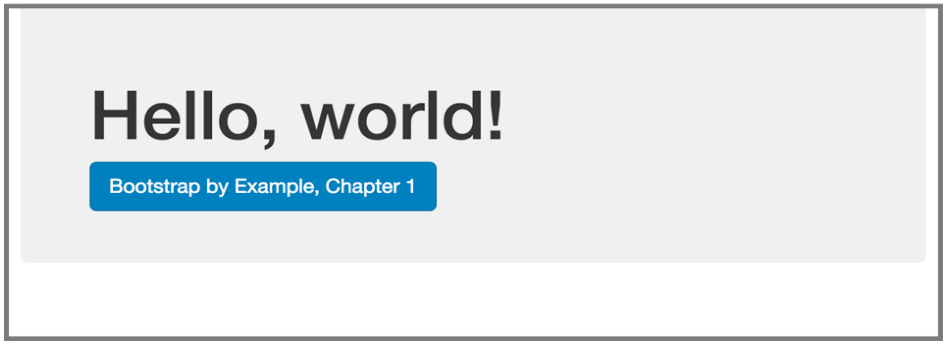
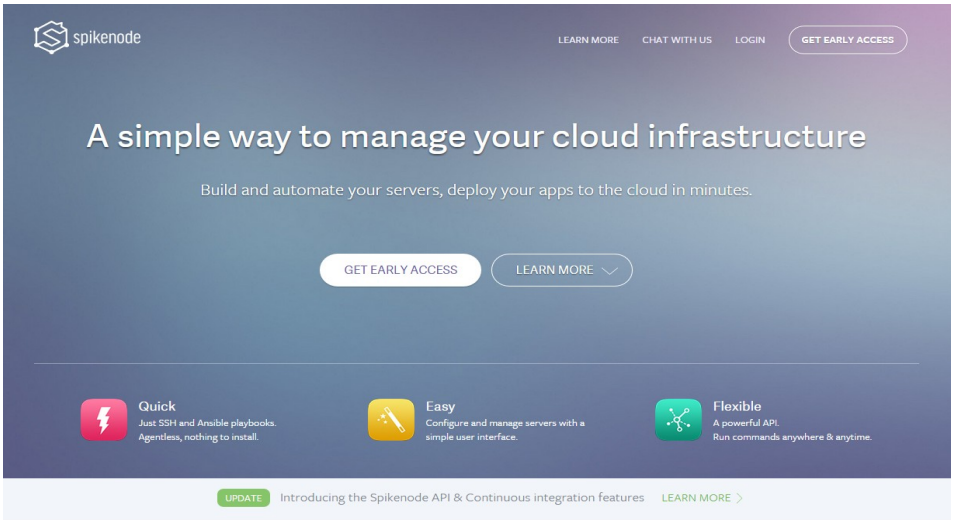
Fluid width (.container-fluid class)





HOW IT WORKS

SpikeNode is a DevOps automation platform

We provide a containerized environment to run Ansible playbooks, bash or python scripts into any hosts with SSH access. Just push your automation scripts to a GIT repository that we provide and run it by calling a secure URL (callback) or scheduling it to run any time.
