COM22 - PuTTY

```
Poky (Yocto Project Reference Distro) 1.7.2 edison ttyMFD2
edison login: root
root@edison:~# █
```

```
COM22 - PuTTY

Configure Edison: Device Name

Give this Edison a unique name.
This will be used for the access point SSID and mDNS address.
Make it at least five characters long (leave empty to skip): edison
```

```
COM22 - PuTTY

Configure Edison: WiFi Connection

Scanning: 1 seconds left

0 :      Rescan for networks
1 :      Exit WiFi Setup
2 :      Manually input a hidden SSID
3 :      jerin
4 :      avirup171

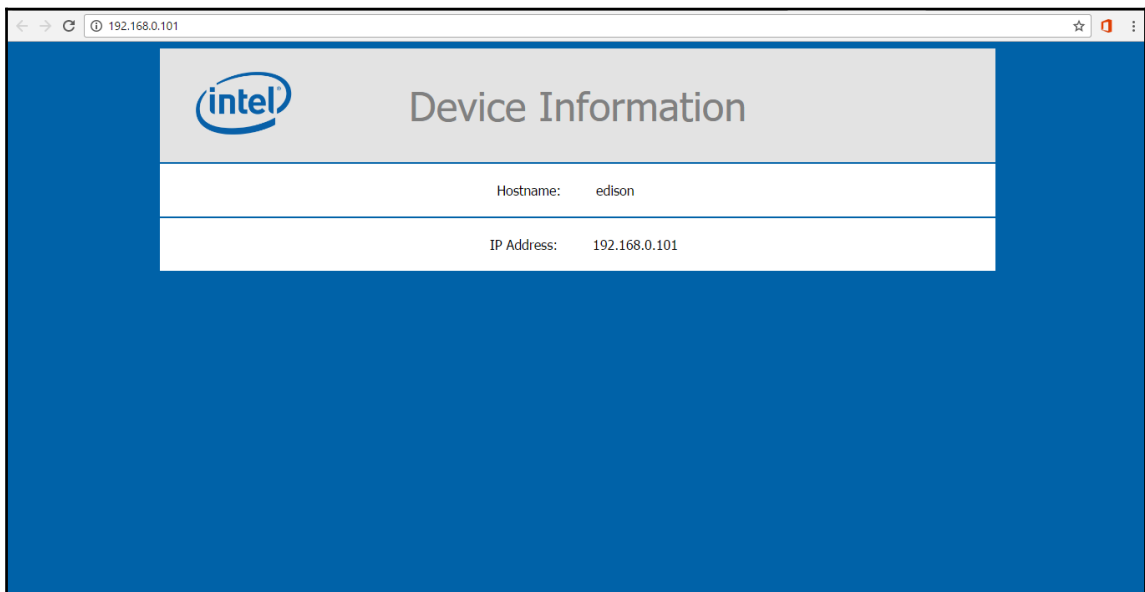

Enter 0 to rescan for networks.
Enter 1 to exit.
Enter 2 to input a hidden network SSID.
Enter a number between 3 to 4 to choose one of the listed network SSIDs: 4
```

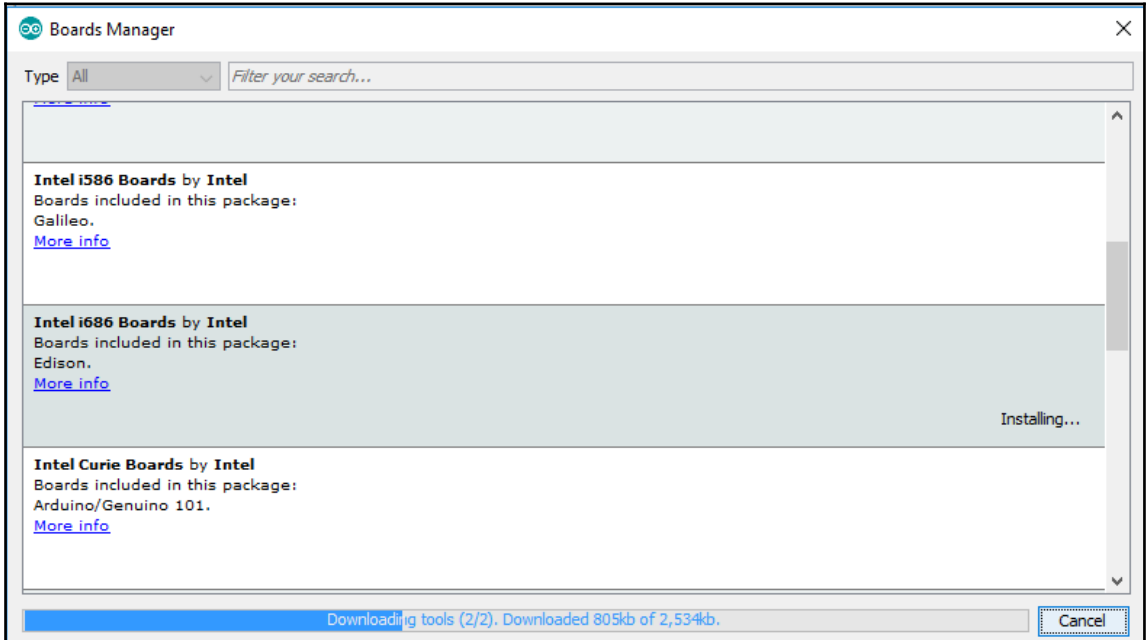

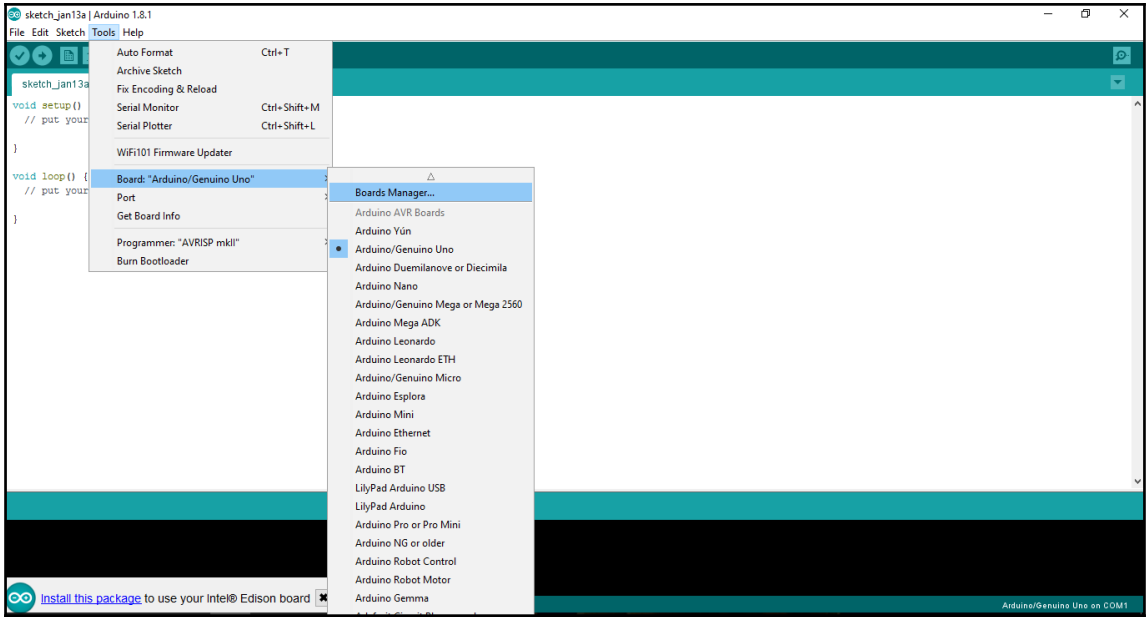

```
COM22 - PuTTY

Scanning: 1 seconds left

0 :      Rescan for networks
1 :      Exit WiFi Setup
2 :      Manually input a hidden SSID
3 :      blrAirtel
4 :      Airtelbina
5 :      avirup171

Enter 0 to rescan for networks.
Enter 1 to exit.
Enter 2 to input a hidden network SSID.
Enter a number between 3 to 5 to choose one of the listed network SSIDs: 5
Is avirup171 correct? [Y or N]: y
Password must be between 8 and 63 characters.
What is the network password?: *****
Initiating connection to avirup171. Please wait...
Attempting to enable network access, please check 'wpa_cli status' after a minute to confirm.
Done. Please connect your laptop or PC to the same network as this device and go to http://192.168.0.101 or http://edison.local in your browser.

root@edison:~# █
```

The image shows the Intel XDK IDE interface. The top window displays a JavaScript file named `main.js` with the following code:

```
1 var m = require('mraa'); //require mraa
2 console.log('MRAA Version: ' + m.getVersion()); //write the mraa version to the console
3
4 var myLed = new m.Gpio(13); //LED hooked up to digital pin 13 (or built in pin on Galileo Gen1 & Gen2)
5 myLed.dir(m.DIR_OUT); //set the gpio direction to output
6 var ledState = true; //Boolean to hold the state of Led
7
8 function periodicActivity()
9 {
10   myLed.write(ledState?1:0);
11   ledState = !ledState;
12   setTimeout(periodicActivity,1000);
13 }
14
15 periodicActivity(); //call the periodicActivity function
16
```

The bottom window is a terminal showing the upload process. A dropdown menu is open over the terminal, listing available IoT devices:

- Manual Connection (192.168.0.101:5888)
- Select a Device -
- [+] Add Manual Connection
- [%] Rescan for Devices
- Manual Connection (192.168.0.103:5888)
- Manual Connection (192.168.0.101:5888)
- My Board - edison (192.168.2.15:5888)

The terminal output below the dropdown shows the upload progress and completion:

```

## Chapter 2: Weather Station (IoT)

1. Zero-power Resistance of Thermistor: R

$$R=R_0 \exp B (1/T-1/T_0) \dots\dots\dots(1)$$

R: Resistance in ambient temperature T (K)  
(K: absolute temperature)

R<sub>0</sub>: Resistance in ambient temperature T<sub>0</sub> (K)

B: B-Constant of Thermistor

2. B-Constant

as (1) formula

$$B= \ln (R/R_0) / (1/T-1/T_0) \dots\dots\dots(2)$$

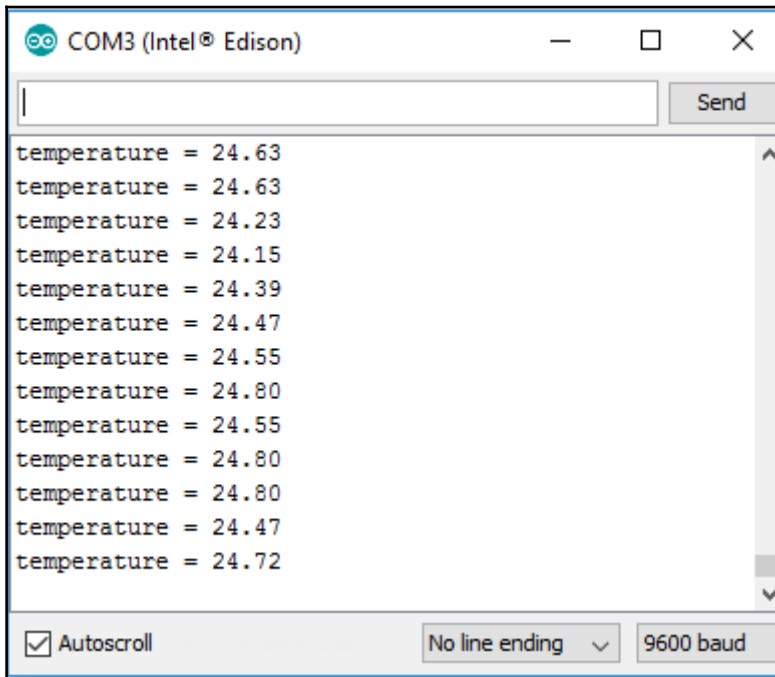

3. Thermal Dissipation Constant

When electric power P (mW) is spent in ambient temperature T<sub>1</sub> and thermistor temperature rises T<sub>2</sub>, there is a formula as follows

$$P=C (T_2-T_1) \dots\dots\dots(3)$$

C: Thermal dissipation constant (mW/°C)

Thermal dissipation constant is varied with dimensions, measurement conditions, etc.

dweet.io

Play Lock Discover FAQ

Click on one of the operations below in our API console to play with dweet.io.

**locks : Lock and unlock your things.** [Show/Hide](#) | [List Operations](#) | [Expand Operations](#) | [Raw](#)

GET	/lock/{thing}	Reserve and lock a thing.
GET	/unlock/{thing}	Unlock a thing.
GET	/remove/lock/{lock}	Remove a lock from thing.

**dweets : Create or read dweets in short term cache.** [Show/Hide](#) | [List Operations](#) | [Expand Operations](#) | [Raw](#)

POST	/dweet/for/{thing}	Create a dweet for a thing.
POST	/dweet/quietly/for/{thing}	Create a dweet for a thing. This method differs from /dweet/for/{thing} only in that successful dweets result in an HTTP 204 response rather than the typical verbose response.
GET	/get/latest/dweet/for/{thing}	Read the latest dweet for a thing.
GET	/get/dweets/for/{thing}	Read the last 5 cached dweets for a thing.
GET	/listen/for/dweets/from/{thing}	Listen for dweets from a thing.

rm storage.

**dweets** : Create or read dweets in short term cache. Show/Hide List Operations Expand Operations Raw

**POST** /dweet/for/(thing) Create a dweet for a thing

**Parameters**

Parameter	Value	Description	Parameter Type	Data Type
thing	EdisonTemperature	A unique name of a thing. It is recommended that you use a GUID as to avoid name collisions.	path	string
key		A valid key for a locked thing. If the thing is not locked, this can be ignored.	query	string
content	(required)	The actual content of the string. Can be any valid JSON string.	body	string

Parameter content type: application/json

## Target Android Devices

### Select the form factors your app will run on

Different platforms may require separate SDKs

Phone and Tablet

Minimum SDK

Lower API levels target more devices, but have fewer features available.

By targeting API 23 and later, your app will run on approximately **4.7%** of the devices that are active on the Google Play Store.

# Add an Activity to Mobile

The screenshot shows a dialog box titled "Add an Activity to Mobile" within a "Create New Project" window. The dialog displays a grid of activity templates. The "Empty Activity" template is highlighted with a blue border and a blue bar at the bottom. Other templates include "Basic Activity", "Fullscreen Activity", "Google AdMob Ads Activity", "Google Maps Activity", "Login Activity", "Master/Detail Flow", "Navigation Drawer Activity", and "Scrolling Activity". At the bottom of the dialog, there are four buttons: "Previous", "Next", "Cancel", and "Finish".

Activity Templates:

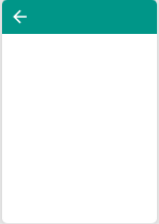

- Add No Activity
- Basic Activity
- Empty Activity
- Fullscreen Activity
- Google AdMob Ads Activity
- Google Maps Activity
- Login Activity
- Master/Detail Flow
- Navigation Drawer Activity
- Scrolling Activity
